I'M AFTER THEM!

I'M AFTER THEM!

Look out for the sleek tongued varments that tell you the Advance is not the best machine in the market. Those that tell you falsehoods are not worthy of being called by any other name. The ADVANCE is guaranteed to do more and better work than any other machine in the market and is the only machine on the Coast that has NEVER been replaced by other machines. Other dealers have offered new machines for an ADVANCE that has been run two years and have given parties to understand they would give differences but were told that the ADVANCE after two years' run was still much better than old fogy machines if they were new. And if the ADVANCE engine is not the best traction engine why is it that I have sold TWELVE on the West Side, between Portland and Corvallis this year?

GRATEFUL—COMFORTING.
EPPS'S COCOA.
BREAKFAST.
By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition and by a careful application of the fine properties of well selected Cocoa, Mr Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame.—Civil Service Gazette.

HIS LEGS ALL RIGHT.

John L. Skips a Rope One Thousand Times

AND STARTS FOR THE SOUTH

He Declares That He Will Win This Fight or Die in the Ring—The Authorities Will Probably Interfere

BELFAST July 1—John L Sullivan having postponed his departure for Rochester until this afternoon devoted the forenoon to his usual work. As the weather was cloudy the exercises were confined to indoor work. For fifteen minutes Sullivan put the heavy ball and then hammered at the heavy raw hide bag for three quarters of an hour.

"If he lands one of those in the first round" said Muldoon to a reporter as with his old swinging right hand blow Sullivan sent the bag whizzing to the planking "about 5000 people will leave the ring side disgusted with the brevity of the contest."

Apparently not quite tired after his hours labor John seized a skip rope and with a light step skipped a thousand consecutive times without a miss. Muldoon then threw a huge blanket over his charge and led him to a couch where he lay for a minute perspiring freely. "Tell my friends about this" said John to the reporter "so they can refute the statements that my legs are gone."

Rubbing down and a succession of shower baths concluded the morning's work and preparations for the journey were then begun.

AT NEW ORLEANS

A Great Crowd Expected—How the Ring Will Be Pitched

NEW ORLEANS July 1—Sullivan's friends received word this morning that Sullivan had started for the South. Sullivan will spend Friday and Saturday at Spanish Fort where preparations are being made to receive him.

The twenty four foot ring or square in which the great fight will take place will be surrounded by another ring at a distance of six feet. Within this will be seats for the representatives of the press, seconds, bottle holders etc and a cordon of police. Outside of this will be another ring at a distance of forty five feet within which those holding $10 tickets will be seated. Police will also guard this ring both on the inner and outer sides to prevent any interference with the fighters or their seconds. Passageway will be formed to allow the fighters to enter by jumping over the ropes of the outer ring. The ropes used in the Sullivan-Ryan fight at Mississippi City will also be used in the coming fight.

Captain Jamieson of Meridian with twenty resolute Mississippians will have charge of the inner ring. In addition there will be a reinforcement of forty tried men from this city who with Jamieson's guard will preserve order.

So far notices have been received of parties from various cities that have been made up to come to the fight to the number of about two thousand.

Betting men are still wary but there is no end of interest in the fight and New Orleans is now affected with the worst kind of an athletic fever.

Curiosity is expressed as to when the trains are to leave the city for the battle ground on the morning of the fight. The scene picked out it is said is not on the rail road track but is not far enough away to make it difficult to reach.

The fact that there are several spots on the line of the road in several parishes sets at rest all doubt as to police interference. If there should be any indication of interference by the officials at the point of selection the event will still be likely to occur. The train will merely move on a piece further.

Jack Barnett, Sullivan's representative, this morning received a dispatch from James Magruder of Richmond Va stating that he will leave immediately for this city. He also telegraphed that he had $1000 which he would like to place on Sullivan. He would be willing to lay $1000 to $800.

Twenty five cars have been engaged for the day of the fight but from present indications fully ten more will be needed. A party of twenty five sports will arrive from Denver this evening.

OFF FOR THE SOUTH.

Sullivan Says He Will Win This Fight or Die in the Ring.

BUFFALO N Y July 1—A special train on the West Shore left Rochester this evening and picked up Sullivan, Muldoon, Charley Johnson and J G Warner at Church Junction. Muldoon said Sullivan is ready for a long or short fight whichever it may be. He is able to fight furiously and fast for an hour or slow and sure for three hours.

Sullivan was tired and soon fell asleep. The special arrived in Buffalo at midnight and was switched to the Nickel Plate tracks at East Buffalo without coming into the city thereby disappointing a large party of friends.

WHAT SULLIVAN SAYS

CHICAGO July 1—A special dispatch to the Chicago *Inter Ocean* from Rochester N Y says: Your correspondent to-day met the Sullivan party forty miles from Rochester and rode with them to this city. Sullivan looked to be in tip top condition with the exception of a dull expression in the eye and a weary look in the face.

Asked how he felt as compared with the time when he fought Ryan he said: "I am as good a man now as then. I won't say better. I feel in perfect shape in every way and intend to make the fight the best of my life. My training has brought me down to 197 pounds but I expect to gain enough between now and July 8 to bring me back to 203 pounds. I shall win the fight or die in the ring."

Muldoon said: "John has done as I have advised him from the 10th of May when he commenced training, and, as a result he is in perfect condition."

THEY MAY BE ARRESTED.

The Governor of Mississippi Issues a Warning Proclamation

NEW ORLEANS July 1—The *Picayune's* Jackson Miss special says: Governor Lowry to-day issued a proclamation calling attention to the coming Sullivan-Kilrain prize fight and calling upon sheriffs and other officers to use all vigilance to prevent such fight within the state of Mississippi. Governor Lowry also offered a reward of $[illegible] for the arrest of Sullivan and Kilrain and their delivery to the officers of the county where the fight takes place should they make Mississippi the battle ground.

A DELIGHTFUL FIGHT

Two Light Weights Punish Each Other in the Most Approved Manner

NEW YORK July 1—A fight between the light weights Johnny Danforth and Jimmy Lynch on Staten Island yesterday [illegible] was the greatest battle that has taken place in this vicinity between men of [illegible]. Heavy hitting [illegible] fought every round. [illegible] Both men [illegible] all through on both sides. Both men were soon covered with blood and the floor [illegible] with gore.

In the sixth round Danforth [illegible] Lynch [illegible] all the best of the fight [illegible] Danforth [illegible] seemed however to have limitless endurance and [illegible] managed to come to time again and again when it was thought that he was lost.

In the nineteenth round Danforth got in a stinger and broke Lynch's jaw. This evened matters up somewhat as he thereafter played for that spot. They kept at it, however, hammer and tongs, and finally in the twenty second round Danforth struck Lynch while in the act of rising after being knocked down. The fight was then given to Lynch on a foul.

LEAGUE GAMES.

Pittsburg, Cleveland, Indianapolis and Boston, the Winners Yesterday

PITTSBURG July 1—Being unable to hit Galvin for more than three singles to-day, the Phillies were shut out for the third time, and lost their fourth consecutive game here. Score—Pittsburg 6, Philadelphia 0. Base hits—Pittsburg 8, Philadelphia 3. Errors—Pittsburg 2, Philadelphia 4. Umpire—McQuaid. Batteries—Pittsburg Galvin and Miller; Philadelphia Buffinton and Clements.

INDIANAPOLIS July 1—The visitors batted in fairly good style and were beaten by the almost perfect fielding of the home club. The game was largely a pitcher's contest, and Boyle was better supported than Keefe. Score—Indianapolis 6, New York 5. Base hits—Indianapolis 6, New York 9. Errors—Indianapolis 0, New York 3. Umpire—Fessenden. Batteries—Indianapolis Boyle and Buckley; New York Keefe and Brown.

CLEVELAND July 1—The Washingtons were not able to hit O'Brien this afternoon and the Clevelands won very easily. Score—Cleveland 8, Washington 2. Base hits—Cleveland 13, Washington 5. Errors—Cleveland 1, Washington 5. Umpire Curry. Batteries—Cleveland O'Brien and Zimmer; Washington Healy and Daly.

CHICAGO July 1—The Bostons outplayed the home team at every turn this afternoon, Clarkson pitching a steady and winning game, striking out nine of Chicago's hardest hitters. Tener's pitching was unsteady. The attendance was 3000. Score—Chicago 3, Boston 7. Base hits—Chicago 5, Boston 10. Errors—Chicago 5, Boston 2. Umpire Lynch. Batteries—Chicago Tener and Farrell; Boston Clarkson and Bennett.

ASSOCIATION GAMES.

ST LOUIS, July 1—St Louis 8, Louisville 2.

KANSAS CITY July 1—Kansas City 6, Cincinnati 3.

PHILADELPHIA July 1—There was no Athletic game to-day on account of rain.

WASHINGTON PARK RACES

WASHINGTON PARK July 1. The attendance to-day was 6000, the weather very hot and the track deep with dust.

Mile, maiden 3-year olds—Kate Malone won, Etruria second, Thunder third; time 1 43.

Five eighths of a mile, maiden 2 year olds—Bill Letcher won, Harvester second, Gunwad third; time 1 02¼.

Five-eighth of a mile, conditions the same as in the second race—Abilene won, Lottie second, Toga third; time 1 02¾.

Mile and one-eighth—Bonita won, Gilford second, Bonnie King third; time 1 55.

Mile—Ernest Race won, Brewster second, Electricity third; time 1 42¼.

Three fourths of a mile—Tom Hood won in the remarkable time of 1 13¼, Catalpa second, Bridgelight third.

THE CRONIN MURDER.

At Last the Police Have Obtained a Valuable Witness

CHICAGO July 1—To-night it is learned that the German John Kunze who was indicted by the grand jury on Saturday last together with six others for complicity in the murder of Dr Cronin is in the hands of the police and has been for several days.

It is stated further that Kunze is the important witness, whose testimony before the grand jury Saturday hastened the indictment and final report.

It is understood Kunze has told the police everything he knows about the affair and confesses that he drove Detective Coughlin to the Carlson cottage on the night of May 4, the horse and wagon used being the property of P O Sullivan, the indicted iceman. What further information the authorities have obtained from Kunze is not known.

Kunze is regarded as a most important prisoner. The state's attorney was overjoyed at his arrest. He would not admit to-night that Kunze had confessed but said he believed the man knew more about the conspiracy than any one unless it is Coughlin himself. He was Coughlin's confidante and evidently was trusted with more than Burke, Cooney or P O Sullivan.

COONEY NOT IN BROOKLYN

NEW YORK July 1—The Brooklyn police are satisfied that Patrick Cooney, the Cronin suspect, is not living in Brooklyn.

A HOT WAVE.

It Sweeps Over the Northwest and Parts of the Pacific Coast.

ST PAUL July 1—Very hot weather is just now prevailing all over the Northwest and the signal service officers predict no cooling change for another day. According to their reports to-day the mercury in this city reached ninety above zero which the thermometers on the streets recorded from 6 to 8 degrees higher than that. Similar reports come from Minnesota, Dakota, Manitoba and Montana although at Helena and a few other points there are indications of a break in the hot wave. Huron Dakota suffered at 94, Morehead Minnesota at 94, Bismarck at 87, Fort Holly at 86 and Duluth at 68.

AT PETALUMA

PETALUMA July 1—This has been the hottest day of the season. The thermometer registered 100 degrees in the shade. Miss Williams of Chelено valley, Marin county, was prostrated by heat yesterday and died.

A CAVE OF SILVER

New Mexico Turns Out Another Rich Hole in the Ground

KANSAS CITY Mo July 1—A large cave near the Hermosa mining camp sixty miles from Las Cruces N M has been opened up and the interior is said to be lined with veins of a most pure silver. It had for years escaped the eyes of old prospectors, because there was nothing about the cave to indicate mineral. It is now thought that the cave will exceed in richness the famous Bridal chamber cave at Snake valley N M from which over $500 000 in silver was taken.

SUED FOR LIBEL

The Editor of the Guatemala "Star" Wants $50 000 Damages.

NEW YORK July 1—Papers were served to-day upon Jacob Baiz, consul general of Guatemala, for the alleged libel of J H Hollander, editor and proprietor of the Guatemala *Star*, through the publication of a decree of the Guatemalan government expelling him from its territory. The damages are laid at $50 000.

THE WORK AT JOHNSTOWN

Governor Beaver Says the People Will Soon Be Self-supporting

JOHNSTOWN Pa July 1—Governor Beaver is here to-day and expressed himself as [illegible] with the work done. He thinks the people [illegible] will soon be self sustaining. The work of [illegible] the Cambria Iron Works [illegible] and the Gautier Steel Works start [illegible] were taken out.

Work at the Norfolk Navy Yard

NORFOLK Va July 1—Active operations commenced at the navy yard to-day in the building of the new [illegible] several hundred mechanics and laborers will be put to work. The working force is to be increased to 1000 men. The work of fitting out the Pensacola will be at once resumed and she will be ready for sea within five weeks. The monitor Amphitrite is expected from League Island by the 15th and the work will go ahead immediately. The gunboat Petrel will also receive the finishing touches this month. The force of hands on the battle ship Texas is being increased as the work is progressing.

The [illegible] of your [illegible] Simmons Liver Regulator [illegible]

[illegible] car accommodation at No. 121 First [illegible] corner Washington [illegible] Northern Pacific Railroad.

ON BELLINGHAM BAY.

Great Activity in the Way of Railroad Building.

WHO ARE PAYING THE EXPENSES?

A Belief General That Several Transcontinental Railroads Are Interested—Lively Times Expected in the Future

TACOMA W T July 1—I have just returned from Bellingham bay after a three days' visit. The railroad situation there is growing to be exceedingly interesting. The four towns on that bay—Whatcom, Sehome, Bellingham and Fairhaven—are practically one city, as the streets of one are a continuation of the other, all of the towns lying in an area of three and a half miles along the water front of the bay. A delegation of Westminster merchants arrived in Whatcom on Thursday relative to the New Westminster & Southern road which runs from New Westminster on the Frazer to the boundary twenty eight miles to connect with the road of Eugene Canfield called the Bellingham Bay Railway & Navigation Company's road which extends from the border to Whatcom twenty one miles. Grading is finished on this road from New Westminster to the boundary and partly finished from the boundary to Whatcom.

The New Westminster crowd offered the Whatcom people $200 000 to complete the road at once if Whatcom would raise one-half that amount and allow them to take charge of its construction. The amount was raised and the road will be built at once, thus bowling out Eugene Canfield who will practically lose what he has heretofore put in the road but will receive large profits from the enhanced value of his lands in the county which aggregate 5000 acres.

In Sehome which is next door to Whatcom, a creek only dividing them, the P B Cornwall and D O Mills line known as the British Columbia & Bellingham Bay railroad has four miles of track running from the wharf through the town. Two shiploads of rails are on the way to continue this road from Sehome to the Mission, or Fort Hope on the border about thirty miles distant in a northeast direction. From these points it is only nine miles further to the Canadian Pacific road, thus making the shortest tap of the Canadian Pacific from Bellingham bay. The Canadian Pacific it is understood, is favorable to this road because a road from New Westminster on the Fraser river to Bellingham bay would practically knock out the terminus of that road at Vancouver, which is only eleven miles in a direct line from Vancouver. Both roads tap a splendid agricultural country.

It is said that President Van Horne of the Canadian Pacific is bitterly opposed to the New Westminster road. That both will be built, one into Whatcom and the other into Sehome, is beyond question. Fairhaven is a mile and a half from Sehome on Bellingham bay and holds the key to the situation for a road from the South and East. Whether it will be the Northern Pacific, Union Pacific or Seattle Lake Shore & Eastern that will grasp it remains to be seen. Twenty miles of a splendid roadbed from Fairhaven southeast toward the Skagit river coal mines have been completed and men are still at work pushing the Fairhaven & Southern railway a few miles further when the mines will be reached. Track laying will begin July 15. Two splendid locomotives are at Fairhaven, which cost $10 000 each, together with enough first class steel rails to lay thirty miles of track. Two more locomotives and rails and equipment for thirty miles are on the way.

I walked over ten miles of the Fair Haven & Southern railroad bed. J J Donovan, the former assistant chief of the Cascade division of the Northern Pacific, is chief engineer of the Fair Haven & Southern. He says the road is better built and better equipped than the Northern Pacific. Coal bunkers are being erected at Fair Haven, and coal will be shipped from the Skagit mines at that point by the last of August.

At the Fidalgo Island town of Anacortes, fronting Ship harbor, railroad building is rapidly going on. This is said to be in the interest of Elijah Smith and the Seattle Lake Shore & Eastern and that the road will lead to the Skagit. Ship Island is nearer the Straits of Fuca than Bellingham bay, Elliott's bay or Commencement bay, and a slough back of it which makes it an island, can be easily bridged.

All of these railroads which are employing in the aggregate 1000 men are not paper railroads. Each is fighting for an eastern, southern or northern connection to Spokane Falls, Portland or the Canadian Pacific road and each is after the coast and Asiatic trade.

I hear to-day that the O R & N steamboat business with the Northern Pacific road on Puget sound is to be transferred to the Washington Steamboat and Transportation Company and that the Northern Pacific has formed a combination with one of the Northern roads, probably the Fair Haven & Southern, to make a continuous line from Bellingham bay to Tacoma and Portland. G M B

The Colored Pugilist Robbed

CHICAGO July 1—Peter Jackson, the colored pugilist, while strolling about the city Saturday was robbed of a purse containing $200 in money, a draft for $700 on the Nevada bank of San Francisco and a number of papers. The loss is an unaccountable one to him. As a precautionary measure he telegraphed the Nevada bank to stop payment of the draft.

Ere the Farewell Is Spoken

On the deck of the steamer or on board the train that is to bear you away from those dear to you, you will, if you are wise, have safely stowed away in your luggage a sufficient supply of that safeguard against illness—Hostetter's Stomach Bitters. Commercial travelers, tourists and pioneer emigrants concur in testifying to the fortifying and saving properties of the great tonic. Use for for constipation, biliousness, malarial and kidney complaints and nervousness.

STATE AND TERRITORY.

The Supreme Court Adjourns Until September 3.

DEATH OF A PROMINENT PIONEER

Proceedings of the State Teachers' Institute—The Railway Commission—Notes From Puget Sound and the Interior.

SALEM, July 1.—The supreme court sat to-day and decided the following cases:

Portland Lumbering and Manufacturing Company, appellant, vs. City of East Portland, respondent; appeal from Multnomah; judgment of the lower court reversed, and cause remanded for further proceedings; opinion by Strahan, J.; Lord, J., wrote an opinion concurring.

SYLLABUS: *Municipal Corporation—Corporate Powers of the City of East Portland*—By section 1, article 6, of the charter of the city of East Portland, the common council of said city has full power, among other things, to improve the sidewalks, pavements, streets and all parts of streets within the limits of the city, making full or partial improvements thereof; and to determine and provide for everything necessary or convenient to the exercise of the authority therein granted.

Municipal Corporation—Power to Contract—Power to contract inheres in every corporation, and is co-existent with its corporate powers.

Municipal Corporation—Ultra vires—The plea of *ultra vires* should not, as a general rule, prevail, whether interposed for or against a corporation, when it would not advance justice, but on the contrary would accomplish a legal wrong.

Petition for rehearing in the railroad commission case denied.

R. McDonald, appellant, vs. American Mortgage Company of Portland, respondent; appeal from Multnomah; judgment of the lower court modified; opinion by Thayer, C. J. Lord, J., concurred, except that he thought the allowance of attorney's fees reasonable and ought not to be disallowed.

Court adjourned till Tuesday, September 3, 1889.

DEATH OF JUDGE DAWSON.

An Old and Highly Respected Citizen of Monmouth, and an Oregon Pioneer.

INDEPENDENCE, Or., July 1.—Judge William Dawson, of Monmouth, died at his home Sunday evening at 5 o'clock of heart disease and dropsy.

Judge Dawson was born at Northumberland, Scotland, December 21, 1816, and was raised in England, received his education in Scotland, and came to the United States in 1838, and to Oregon in 1845, crossing the plains with the Stephen Meek party, and first settled in Yamhill county, near McMinnville, and was commissioner of that county for several years. He was a Mason of fifteen years' standing, and a member of the Christian church since 1849.

He leaves six daughter, Mrs. J. H. Hall, of Tacoma, Mrs. A. Saling, of Waitsburg, Mrs. M. Bewley, of Colwell, W. T., Mrs. D. W. Small, of Walla Walla, Mrs. A. Malone, of Dayton, W. T., and Mrs. L. Ellis, of Waitsburg, and one son, J. William Dawson, cashier of the Polk County bank at Monmouth.

Rev. H. M. Laye preached a short sermon at Monmouth Monday morning. The remains were taken on the Narrow Gauge train to McMinnville, where they will be consigned to their last resting place. They were accompanied by many prominent Masons of this county, under whose direction the funeral will be held.

STATE TEACHERS' INSTITUTE.

A Large Number of Superintendents and Instructors in Attendance.

SALEM, July 1.—This is the first day of the state teachers' meeting, and a large number of country and city superintendents and teachers from all parts of the state were present. The programme proper commenced this evening, but the department of superintendents met this afternoon and elected the following officers: President, W. A. Wetzell, of Multnomah; vice president, T. V. Hutchinson, of Douglas; secretary, F. Rigler, of Oregon City.

The following subjects were discussed: "Difficulties of Ungraded Schools," "How to Conduct Local Institutes," and "Division of School Districts."

The following committee was appointed to report on the advisability of forming a state reading circle: Superintendents Pierce, of Umatilla, Baker of Yamhill, Hutchinson of Douglas, Rigler of Oregon City, Rundle of Salem.

The following superintendents were present: County superintendents—D. W. Yober Marion, L. M. Curl of Linn, Alex. Thompson of Clackamas, W. H. Burch of Coos, T. V. Hutchinson of Douglas, W. W. Kennedy of Gilliam, J. G. Stevenson of Lane, W. A. Wetzell of Multnomah, W. I. Reynolds of Polk, W. M. Pierce of Umatilla, L. H. Baker of Yamhill. City superintendents—S. A. Rundle of Salem, Frank Rigler of Oregon City, J. M. Williams of Eugene, J. B. Horner of Roseburg, M. G. Royal of Pendleton, Professor Ackerman of East Portland.

EVENING SESSION.

The legislative hall was comfortably filled at 8 o'clock to hear the opening exercises. The Capital City band played a pleasing air, after which Rev. W. Rollins offered prayer.

Professor A. S. Starr, of Willamette university, delivered an address of welcome, offering the cordial welcome of Oregon's beautiful capital city to the destiny makers of the country.

Professor Parvin and chorus sang a beautiful solo.

Professor Herbert Kittridge, of Baker City, responded, with the thanks of the association, and spoke of the good work being done by the public schools, and the importance of their encouragement.

After music by the band, State Superintendent McElroy introduced Colonel L. F. Copeland, of Harrisburg, Penn., who delivered a lecture on "Snobs and Snobbing," in which he enunciated some splendid truths in a brilliant manner.

The business session opens to-morrow.

THE RAILROAD COMMISSION.

Governor Pennoyer Still Refuses to Approve the Bonds of Its Members.

SALEM, July 1.—The state board of railroad commissioners met to-day. A complaint was received by them from Vincent & Spaulding, of Middleton, Yamhill county, for not being able to obtain cars sufficient to ship lumber.

Governor Pennoyer still refuses to approve the bonds of the commissioners, though it is said he promised to do so, if the supreme court decided against his appointees. It is now said the governor's commission intends bringing an action of quo-warranto for their office.

FROM ELLENSBURG.

Close of the Session of the Congregational Assembly of Washington.

ELLENSBURG, July 1.—The Congregational assembly of Washington closed its session at Ellensburg this morning. Forty ministers were present, and the work of the assembly is the most interesting that has taken place among the ministerial associations in the territory. Walla Walla was chosen as the next place at which to hold the assembly.

Nels Nelson's residence in West Kittitas was destroyed this morning with all its contents, the family narrowly escaping with their lives.

TACOMA NEWS ITEMS.

A New Steamer Launched—Arrival of the Alger Party.

TACOMA, W. T., July 1.—The new steamer State of Washington, built on the flats by Captain J. J. Holland for the Pacific Navigation Company, was successfully launched a little before 9 o'clock this evening, with steam up. In less than a minute after she struck the water the wheel began to turn, and the steamer made a trip down the river, and circling round the bay was shortly after tied up to the railway wharf. She is a sternwheeler, guaranteed to make eighteen miles an hour. Is 165-foot keel, 190-foot over all, 30-foot beam, 7-foot hold. Has two engines, 18½-foot cylinders, 7-foot stroke, and is one of the prettiest models ever seen. The contract price is $40,000. She will make a trial trip early next week, as soon as her furniture and fittings are all in. She is designed to run between Tacoma and Whatcom, and will make the eighth regular steamer on that route.

General Alger, ex-Senator Platt, Judge Thurston and party arrived in Tacoma this morning, and this evening took the steamship Corona for Alaska. General Alger has large timber interests on Puget sound, and said to-day that on his return from Alaska he would meet his partner, Mr. Hawley, and make arrangements for building a large sawmill at some point on the Sound, probably at Tacoma or at Bellingham bay. Judge Thurston disclaimed any political purpose in the trip to Alaska, but confidently predicted victory for the republican ticket in 1892.

The hod carriers and mortar men all over the city struck to-day. The former want $3 50 and the latter $3 a day.

FROM NORTH YAKIMA.

A Coal Discovery—Opening of a New Hotel—Etc.

NORTH YAKIMA, W. T., July 1.—Prospectors have brought in fine specimens of anthracite coal, which is pronounced by experts genuine and of the finest quality.

The Hotel Yakima was opened last evening. One hundred and forty-seven guests sat down to a fine dinner. Many of the traveling guests pronounce the Yakima equal to the best in the territory.

An excellent quarry of lime rock has been located in the Tieton basin, near this place. The rock is of shell formation.

Ground was broken to-day on the new Bartholet hotel on First street, a three-story brick block. This will make ten brick blocks now under contract.

Real estate is active, and to-day Milroy's addition was placed on the market and many lots sold.

A MONTANA HOTEL BURNED.

Narrow Escape of a Young Lady From the Blazing Building.

HELENA, July 1.—Peterson's hotel at Marysville was burned down last night. The inmates had barely time to escape. A young lady, Miss May Nelson, had a narrow escape. She was taken from a second-story window in her night robes just as the flames were closing in on her. She lost everything.

Salem News Notes.

SALEM, July 1.—The election of a chief of the Salem fire department occurred to-day, resulting in the selection of George G. Bingham by a vote of 73 to 58 for T. A. Howard. A. J. Basey was elected assistant chief without opposition.

Frank Raven, recently arrested here on a telegram from Denver, Colo., was taken back there to-day by a detective from Denver. He is wanted for forging but has influential family connections and probably will get out of it all right.

The Mineral Mining Company filed articles of incorporation with the secretary of state to-day; capital stock, $50,000; place of business, Portland; incorporators, B. P. Cardwell, J. W. Minto and C. P. Church.

Walla Walla Notes.

WALLA WALLA, July 1.—John Foley, an inmate of St. Mary's hospital, was adjudged insane this morning and taken to Steilacoom.

Forty-nine babies, thirty-seven girls, are registered to date for the baby show here on the Fourth.

Rev. Father Waugh, of Petaluma, Cal., is visiting here. He crossed the plains in 1852.

Harry Krutz, Frank D. Boyer, Dr. Blalock and B. L. Sharpstein are mentioned in connection with the mayorality of the city.

Dr. J. H. Day returned this morning after a long absence in the East.

A Terror of a Woman.

TACOMA, W. T., July 1.—Mrs. Allen, the short-haired, red-headed woman who has, it is alleged, stole a quantity of valuable goods from prominent citizens here, and who is always accompanied by a child, alleged not to be her own, was about midnight bound over on two charges of burglary and one of grand larceny. As the grand jury is now in session, her case will be disposed of very soon. This is the woman who made an attempt to break jail last week and let the little boy down over the fence with a ribbon.

A Tramp Badly Injured.

CHEHALIS, W. T., July 1.—About 3 P. M. to-day a tramp named Ben Mutson attempted to climb on to a train, missed his hold and fell to the track. The train ran over his right arm, mashing it badly. The doctors amputated it half way above the elbow. He is a young man from Dwight, Kan. He was accompanied by Sam Nelson, and the two were bound for Tacoma.

Seattle News Notes.

SEATTLE, W. T., July 1.—The council to-night passed a long ordinance regulating building. The law is a counterpart of that in force in San Francisco.

A contract was let to-night for the construction of the Hotel Denny at a cost of $196,000, to be completed before May 1.

Brick Buildings for Vancouver.

VANCOUVER, W. T., July 1.—To-day arrangements have been completed for the erection of three brick buildings within the district recently swept away by fire, and more will soon follow.

On Their Way to Spokane Falls.

INDEPENDENCE, Or., July 1.—E. C. Pentland, editor of the *West Side*, and wife departed for Spokane Falls to-day.

Personal and General Notes.

SAN FRANCISCO, July 1.—Alvin H. Davis, of Oakland, dropped dead at Bridger's ranch near Fruitdale to-day. It is supposed that heat and walking in the sun aggravated heart complaint and caused his death.

General William H. Dimond, recently appointed superintendent of the mint, to succeed Israel Lawton, assumed the duties of his office this morning. Work will at once be commenced in counting the money in the vaults.

F. Royce, general superintendent of the Chicago, Rock Island & Pacific, will leave for Portland, Or., on a business trip to-morrow.

Colonel C. F. Crocker, second vice-president of the Southern Pacific company, returned from the North to-day.

A large number of the delegates who attended the convention of the National Pharmaceutical Society left on the Oregon express to-night. The party of delegates filled four cars. From Portland they intend going East over the Northern Pacific, stopping en route at the Yellowstone Park.

F. M. Wilkins and wife, of Eugene, have left for Oregon.

Major T. H. Hanbury, of the United States engineers, who has been on an extended trip along the Northern coast, has returned to this city. His work has been the selection of suitable sites for lighthouses, and to this end he has made an examination about the mouth of the Umpqua river and at Hecate Head. He reports finding wreckage of the steamship Alaska strewn along the beach for miles north of the Umpqua.

Given a Military Burial.

SAN DIEGO, July 1.—The soldier who committed suicide at the Barracks Saturday night was buried to-day with military honors. In the papers found among his effects it appeared that his name was Elliott. He was a graduate of Toronto University and a writer and scientist of some distinction. He taught languages in Mexico and led an eventful, as well as a scholarly, life previous to his enlistment last January. His mind has been unbalanced.

The California Pioneers.

SAN FRANCISCO, July 1.—At a meeting of the Society of California Pioneers, Marshal Cheva read his annual report, which showed that the society had lost thirty-nine original members and thirteen ex-members during the year. Five ex-presidents of the society have also passed away during the year.

Shipping.

SAN FRANCISCO, July 1.—Arrived—Steamer Oregon, Portland; steamer Cosmopolis, Coos bay; British steamer Wellington, Departure bay. Cleared—Ships Louis Walsh and Empire, Port Townsend. Departed—Steamer Columbia, Portland.

The Murphy-Murphy Mill.

SAN FRANCISCO, July 1.—At a meeting of the directors of the California Athletic Club to-night the date of the fight between Frank Murphy, the English featherweight, and Billy Murphy, the Australian champion, was fixed for Friday, July 26.

New Employes at Mare Island.

VALLEJO, Cal., July 1.—Sixteen changes were made to-day in employes of the different departments at the Mare Island navy yard. The wages of the new appointees vary from four to six dollars per day.

Accidentally Shot and Killed.

LOS ANGELES, July 1.—William Shanker, aged 71 years, was shot and killed last night at Downeys in this county, while attempting to take a rifle away from the 7-year-old son of G. Cohn.

No harm ever done by the use of Simmons Liver Regulator.

EIGHT BLOCKS BURNED.

Fire Destroys the Business Portion of Durango.

MANY RESIDENCES ALSO BURNED

The Total Loss Estimated at Three Million Dollars—A Number of Firemen Killed and Injured in Another Blaze.

DENVER, July 1.—A special from Durango, Colo., says: At 3 o'clock this afternoon fire broke out in the southern part of the city, and in an incredibly short time the flames, assisted by a strong wind from the north, spread in every direction, leaping from building to building, until at this writing (at 4 P. M.) half the town is in ashes.

Every business house and public building in the city, except the postoffice and Streator's hotel, has been burned to the ground.

The wind is still blowing, and the fire is beyond control. The telegraph office is threatened and may soon go.

What the final result will be cannot be foretold. Should the flames be communicated to the resident part of the city, as is not unlikely, what was a few hours since the flourishing city of Durango, will soon be nothing but charred debris and ashes.

The fire department responded nobly, but were completely powerless.

In the great excitement the origin of the conflagration cannot be learned.

The fire was extinguished after the total destruction of eight business blocks, which includes all the principal business houses and three churches. A portion of the resident part of the town was also destroyed. The loss is estimated at $3,000,000, with but light insurance. The origin of the fire is supposed to be incendiary.

A DISASTROUS FIRE.

One Fireman Killed and Eight Others Injured.

SAVANNAH, Ga., July 1.—Fire to-night destroyed A. J. Miller & Co.'s furniture house, the establishments of J. T. Cohens, dry goods; M. Steinberg, jeweler, and L. E. Byce & Son, dry goods. Total loss, $150,000. While the firemen were at work on the Broughton street front of the building, in the heat of the fire, a wall gave way and carried the firemen with it, burying six of them under a mass of hot debris. One was killed and eight others injured, of whom two may die.

CONSULAR APPOINTMENTS.

A Large List, in Which the Pacific Coast Fails to Share.

WASHINGTON, July 1.—The president to-day made the following appointments: A. London Snowden, of Pennsylvania, consul-general to Roumania, Servia and Greece; Wm. Hayden Edwards, of Ohio, consul-general at Berlin; Augustus O. Bourne, of Rhode Island, consul-general at Rome; Eugene Schuyler, of New York, consul-general at Cairo; Wallace Bruce, of New York, consul at Leith; Wm. Harrison Bradley, of Illinois, consul at Nice; Edward P. Fairfield, of Michigan, consul at Lyons; Irving J. Manatt, of Nebraska, consul at Athens; Wm. Bowman, of Kentucky, consul at Dresden; Adolph G. Studer, of Iowa, consul at Bremen; Enoch J. Smithers, of Delaware, consul at Osaka and Hioga; Alex. C. Moore, of West Virginia, consul at St. Thomas; Chas. F. Johnson, of Ohio, consul at Hamberg; Silas C. Halsey consul at Sonneberg.

PRESIDENTIAL APPOINTMENTS.

WASHINGTON, July 1.—The president has made these appointments: Arthur M. Tinker, of Massachusetts, to be Indian inspector; W. S. Reynolds, of Wisconsin, to be special agent to make allotments of lands in severalty to the Indians; George A. McKenzie, of California, to be register of the land office at Stockton, Cal. To be Indian agents—Archer O. Simmons, of Montana, Fort Belknap agency; Charles O. Bartholomew, of Colorado, at the Southern Ute and Jacarilla agencies in Colorado; William P. McClure, of New Mexico, at the Pueblo agency in New Mexico; William I. Plumb, of Nevada, of the Western Shoshone agency in Nevada.

PUBLIC DEBT STATEMENT.

A Decrease During the Month of Over Sixteen Million Dollars.

WASHINGTON, July 1.—Following is the debt statement issued to-day:

Interest bearing debt—principal...	$ 894,477,472 00
Interest...	10,574,562 00
Total...	$ 905,052,034 00
Debt on which interest has ceased since maturity, principal and interest...	2,065,474 00
Debt bearing no interest...	744,284,353 00

Sinking fund bonds...	10,730,050 00
Cash...	924,148 00
Total...	$1,076,589,154 00

A POOR OPINION OF VANCOUVER.

The President's Plan of Punishing Major Lydecker of the Garrison.

WASHINGTON, July 1.—Major Garrett J. Lydecker, of the corps of engineers, who has had charge of the construction of the new water works tunnel, and by neglect allowed the contractor to swindle the government out of about $500,000, was to-day ordered to report at Vancouver barracks, W. T., for duty in the department of the Columbia. He was court-martialed for neglect, but was let off with a fine of $900. The president and Secretary Proctor were very much surprised at the verdict of the court martial, and it is thought this order is on that account.

MEANT AS A REPRIMAND.

WASHINGTON, July 1.—It is said by officers connected with the engineer's corps that the detail of Major Lydecker to Vancouver barracks, W. T., is in the nature of a reprimand. It is customary to station an army engineer officer at each army headquarters, but never to detail an officer above the grade of first lieutenant for this service. The position was taken that after Lydecker's failure to properly superintend the construction of the Washington aqueduct he could not be entrusted with the charge of other important improvements, and that, therefore, there was no assignment which could be given other than one of the character made to-day.

ANNEXED BY ENGLAND.

The British Government Lays Claim to Another South Pacific Island.

WASHINGTON, July 1.—The department of state has been informed by the United States consul at Auckland, New Zealand, that the island of "Suwarrow" in the Pacific ocean has been annexed by the British crown, the commander of the warship "Rapid" having hoisted the British flag on that island May 1st last.

COMMODORE SCHLEY.

He Was an Economist Under Cleveland, But is Criticised for It.

WASHINGTON, July 1.—There continues to be a great deal of comment in naval circles over the apparently voluntary retirement of Commodore Schley from the position of chief of the bureau of equipments of the navy department. It appears that Commodore Schley had a disposition during the last administration to be an economist, and that it was because of his zeal in this direction that during the last year of the Cleveland administration the commodore had a slight difference with Secretary Whitney. Commodore Schley is said to have turned into the treasury at the end of the last fiscal year $150,000 appropriated for his bureau. As a consequence of this act the appropriation for the fiscal year which has just ended was $150,000 less. A good many naval officers maintain that Schley was not justified in turning this money into the treasury and that because of his apparent economy the naval service has been considerably crippled. At the time this money was turned in it was said that coal was wanted in nearly all of the naval stations and that the department was somewhat embarrassed on that account. It appears also that the cruiser Chicago was obliged to go to sea without fire extinguishing apparatus, curtains or carpets because this money was turned in when it was, in fact, needed.

THE JESSUP WILL CASE.

A Decision by the Supreme Court of California.

SAN FRANCISCO, July 1.—The supreme court to-day handed down a decision in the Jessup will case, affirming the decision of the lower court recognizing the contestant's right to the estate. Gersham F. Jessup, an unmarried man, died testate a few years ago, leaving an estate valued at $100,000. By his will he bequeathed his estate to his brothers and sisters. The will was admitted to probate, and letters issued to the executors. Respondent, Richard Page Jessup, filed his petition, alleging that he was an illegitimate son of deceased, and had been adopted by him, whereby he became his legitimate son and heir, and praying for a partial distribution of the estate to him. The petition was granted, and an order made distributing the whole of the estate to petitioner, upon his giving bonds to secure the payment of debts of the estate and the costs and expenses of administration.

From this order the executors of the estate and legatees under the will appealed to the supreme court, with the result that the decision of the lower court is sustained, and young Jessup comes into possession of an estate valued at from $125,000 to $135,000.

PERSISTENT MORMONS.

Missionaries Arousing Great Indignation in West Virginia.

WHEELING, W. Va., July 1.—The persistency with which Mormon missionaries are carrying on their work in some parts of West Virginia, is beginning to excite a great deal of indignation, and there is likely to be trouble soon. Ritchie county, at present, is the scene of the most active operations. Two elders have been killed, and the others have taken up quarters on Indian creek. There is quite a large congregation and meetings are held weekly, at which polygamy is not only openly preached, but an attempt is being made to carry the theory into practice, at least one convert having taken unto himself a second wife.

In other parts of the same county like success has attended the efforts of the missionaries and in all there are fifty full-fledged Mormons in the county. No efforts are made to transplant converts.

A CHINESE FORGER.

He Draws $3000 on the Bank of California and Leaves for Parts Unknown.

SAN FRANCISCO, July 1.—Shin Wen, agent for Tong Wo & Co., Chinese merchants, is wanted for forgery. He secured checks from Bode & Haslett on a forged promissory note from his firm for $3000. He then forged indorsements on the checks and cashed them on the Bank of California. It is supposed that the forger has gone to Oregon.

A Rough Experience.

WASHINGTON, July 1.—George Clark, aged 15 years, and S. J. Dick, 17 years old, arrived in this city to-day from San Francisco, after a rough experience. They spent their last 15 cents for ferriage from San Francisco to Oakland to take the train across the continent. They beat their way, and were frequently ejected from the trains by the railroad hands, but persevered, and finally succeeded in reaching this city. The boys were formerly employed by the Western Union Telegraph Company.

A Fatal Railway Accident.

LITTLE ROCK, July 1.—Passengers who arrived in Little Rock this morning informed the *Gazette* of a railroad accident which occurred Sunday evening near Terrell, Tex., on the Texas & Pacific road, in which one man, whose name is unknown, was killed and several were injured. The engine, baggage car and one coach are reported to have gone through a defective bridge.

How Harrison Will Spend the Fourth.

WASHINGTON, July 1.—The presidential party will leave Washington to-morrow afternoon for Woodstock, Conn., where the president will spend the Fourth of July. In the party will be President and Mrs. Harrison, Secretaries Tracy and Noble, Associate Justice Miller and Senator Hiscock.

Mrs. Dolph's Summer Resort.

WASHINGTON, July 1.—Mrs. Senator Dolph and family left to-day for Vineyard Haven, where they will spend the summer season. Vineyard Haven is off the southeast coast of Massachusetts, is one of the favorite New England resorts. Her daughter, Mrs. Nixon, accompanied her.

Appointed Assistant Adjutant General.

WASHINGTON, July 1.—Captain Arthur McArthur, jr., of the Thirteenth infantry, has been appointed assistant adjutant general, with the rank of major, to succeed to the vacancy caused by the appointment of General Kelton to be adjutant general.

Blaine Going to Bar Harbor.

WASHINGTON, July 1.—Secretary Blaine and Walker Blaine left the city this afternoon for Bar Harbor, where the former will remain until September. President Harrison contemplates paying Secretary Blaine a visit some time in July.

A Barn Burned With Its Contents.

MARYSVILLE, July 1.—A spark from a kitchen stove set fire to a barn on Dougall's ranch north of this city and destroyed several thousand sacks, several wagons and two acres of grain, besides the barn. The loss is $1200.

Disasters to Pacific Coast Vessels.

SAN FRANCISCO, July 1.—The number of disasters and minor mishaps to vessels in the Pacific trade from July 1, 1888, to July 1, 1889, numbers seventy-five, the total losses including six steamers, nine iron and twenty-three wooden deep water ships.

Shot Himself Dead.

NEW ORLEANS, July 1.—Captain William Pierce, in the Continental Guards armory this morning, shot himself dead. No cause is assigned for the act. Captain Pierce was for several years commander of the Continental Guards.

A Valuable Gift From the Pope.

BALTIMORE, June 1.—Cardinal Gibbons has received a beautiful present from Pope Leo XIII. It is a large golden and richly jeweled ostensorium and was sent to the cardinal as a souvenir of the pope's jubilee.

Oarsmen Drowned.

ST. LOUIS, Mo., July 1.—A four-oared shell of the North End Club, on the river, collided with a large boat and was crushed to-day. Henry Brown, Herman Karraty and William Karraty were drowned.

The Sioux Commission.

CHAMBERLAIN, Dak., July 1.—The Sioux commission arrived yesterday afternoon and will hold a council with the lower tribes this afternoon. It is believed that there will be no trouble in getting signatures.

To Connect With the Canadian Pacific.

NEW YORK, July 1.—A syndicate has been formed to build a line connecting the Canadian Pacific from a point about three miles east of Three Rivers, in Quebec, with the Lake St. John route.

Appointed Special Agent.

WASHINGTON, July 1.—J. C. McCoy, of Pueblo, Colo., was to-day appointed special agent of the treasury department and will probably be assigned to duty on the Pacific coast.

Name of a Postoffice Changed.

WASHINGTON, July 1.—The name of the postoffice at Centerville, Umatilla county, Or., has been changed to Athena. John Edgington will be the postmaster.

Pasturage Burned.

VALLEJO, July 1.—A fire said to have been started by some malicious persons near Sulphur Springs to-day, destroyed 2000 acres of good pasturage.

A Prominent Man Dead.

NEW HAVEN, Conn., July 1.—Ex-President Woolsey, of Yale, died this afternoon, aged 87 years.

Are you dull, despondent, discouraged? Hood's Sarsaparilla will make you cheerful and congenial.

Tickets to and From Europe.

Excursion tickets to Paris sold at Northern Pacific ticket office, No. 121 First street, corner Washington.

A GREAT HORSE SALE.

California Yearlings Disposed of at Auction.

RECEIPTS MORE THAN $100,000

Senator Hearst Purchases a Number of Promising Young Horses—A List of the More Important Sales.

NEW YORK, July 1.—The second great sale of yearlings, property of J. B. Haggin, took place this afternoon at Hunt's Point, in Westchester county. The lot consisted of 100 colts and fillies. By all odds it was the greatest sale that has occurred in this vicinity. The sale a year ago, on which occasion sixty-four colts and fillies were sold, realized $112,775, an average of $1762. At that time King Thomas was sold, bringing $38,000, the highest price ever paid for a yearling.

This year's youngsters were raised at the Rancho del Paso, California. Prominent among those present were Senator George Hearst of California and Philip and Mike Dwyer. The yearlings sold for $500 and upwards are here named:

Bay filly by Himyar, out of Allee, $800; bought by Charles Read.

Brown colt by Darebin, out of Bavaria, $2550; bought by Colonel H. I. Thornton, of San Francisco.

Bay filly by Darebin, out of Bessie Peyton, $900; bought by Scott Quinton.

Chestnut filly by Sir Modred, out of Bonnie Kate, $1200; bought by Scott Quinton.

Bay colt by Sir Modred, out of Carissima, $3650; bought by Scott Quinton.

Bay filly by Warwick, out of Cordelia Plant, $2500; bought by Charles Read.

Chestnut colt by Hyder Ali, out of Delight, $1000; bought by Charles Read.

Brown filly by Falsetto, out of Explosion (dam of Dewdrop and Disdain), $10,000; bought by Senator George Hearst of California. This filly is a full sister to the mighty Dewdrop, who was a performer on the turf in her day. She is also a half sister to Daruna and Disdain. This filly has an engagement in the futurity stocks of 1890.

Chestnut colt by Joe Daniels, out of Faustina, $2500; bought by Senator Hearst.

Chestnut colt by Hyder Ali, out of Fidelity, $500; bought by Senator Hearst.

Bay colt by Darebin, out of Flora, $2200; bought by A. Buck.

Bay filly by Illusion, out of Flower Girl, $650; bought by Scott Quinton.

Bay filly by Joe Daniels, out of Fortuna, $550; bought by H. H. Longstreet.

Chestnut filly by Hyder Ali, out of Graciosa, $1000; bought by Senator Hearst.

Brown filly by Joe Daniels, out of Hindoo Belle, $500; bought by Jordan.

Bay colt by Ben Fox, out of Illusion, $1500; bought by Scott Quinton.

Bay filly by Darebin, out of Kate Darling, $750; bought by Scott Quinton.

Bay colt by Darebin, out of Kiss Me Quick, dam of Warrenton and Wanderer, $1500; bought by W. Walden.

Bay colt by Warwick, out of Middleton, $800; bought by Walter Gratz.

Bay filly by Sir Modred, out of Favorita, $1100; bought by Scott Quinton.

Bay filly by Sir Modred, out of Letola, $1600; bought by Scott Quinton.

Chestnut filly by Sir Modred, out of Lizzie Lucas, dam of Chimera and Cyclops and Cambysses, $1000; bought by M. Jordan.

Brown filly by Darebin, out of Lou Lanier, dam of Katrina and King Arthur, $3700. Lou Lanier, dam of this filly, was one of the best race mares of her day. She is the dam of Katrina, Kaleidescope, etc.

One hundred and three colts and fillies were sold for a total of $110,000, but interest centered in a half-brother to King Thomas, who was sold last year as a yearling to Senator Hearst for $40,000. This colt was not put up until late. The first bid was $2500, and the sum rapidly swelled to $8500 by bids of $100. Then they took a jump to $10,000, and the bids that followed were in the thousands. The colt was finally knocked down to Scott Quinton for $22,000. Quinton's purchase is by imported St. Blaise (winner of the English Derby of 1883) out of Mary Hampton. It was foaled April 20.

Drunkenness and the craving for liquor banished by a dose of Simmons Liver Regulator.

Reservations on any steamship line in the Atlantic service to Europe can be secured at Northern Pacific ticket office, no 121 First street, corner Washington.

THE QUESTION SETTLED.

This cut is a faithful picture of the well known establishment of Thomas Price & Son, at 524 Sacramento street, S. F. As the leading chemists of the west, they were asked to settle the question as to what sarsaparillas were in fact purely vegetable. We present their report.

"We have made careful chemical analyses of several well known brands of sarsaparilla, and have found them all with the single exception of Joy's to contain Iodide of Potassium. As a result we are enabled to pronounce Joy's to be the only purely vegetable sarsaparilla now on the market, which has come under our observation."

Modern medicine has proven that all ordinary face eruptions are not caused by diseased blood, but by indigestion and sluggish circulation, which call for vegetable alteratives, instead of mineral blood purifiers like Iodide of Potassium. Joy's Vegetable Sarsaparilla being the latest, is the first to discard the old notions and proceed under the modern theory. Its cures attest the soundness of the theory. It is the talk of the hour.

Joy's Vegetable

One pint of the pure juices of vegetable alteratives indigenous to California, combining the most effective liver and kidney remedy, blood purifier, stomach regulator and vegetable laxative in existence.

GRAND

FOURTH OF JULY

CELEBRATION

—AT—

VANCOUVER, WASH. TER.,

In aid of the Johnstown sufferers.

Great Civic and Military Demonstration.

The citizens of Vancouver announce to the public that on the Fourth of July next they will have a grand demonstration in aid of the

Johnstown Sufferers

The day will be ushered in by the booming of cannon and the firing of salutes, to be followed by a

Great Civic and Military Procession.

Orations by Distinguished Men.

Games, + Music. + Dancing + and + Refreshments

Following these will be a brilliant and exciting

SHAM BATTLE

By Regular Troops, Embracing Extensive Operations of Cavalry, Artillery and Infantry, together with Troops of the National Guard, under direction of General John Gibbon, U. S. A., commanding the Department of the Columbia, and under command of able and experienced officers of the regular army.

At night there will be

A GRAND DISPLAY OF FIREWORKS!

In the Military Post of Vancouver Barracks, including Brilliant and Beautiful Mortar Bombs, thrown from Cohorn Mortars, representing actual Siege Operations by night, the shells bursting in mid-air with beautiful and artistic coruscations of color.

This unequaled demonstration will be conducted with great skill and precision in every respect, and a Grand Gala Day afforded all at a trifling expense, with the certainty that every cent paid in will be for one of the noblest purposes now or ever before demanded of our country, viz, that of affording our stricken fellow countrymen assistance in the hour of a great need, following the most appalling calamity of modern times. While this effort is notably one for the prompt, efficient and extensive

Aid of the Johnstown Sufferers,

There will still be no exorbitant charges to the public. Refreshments will be served to all at reasonable rates, and a small fee of 25c only charged for admission to the grounds, especially set apart for, and admitting of the view of the Battle, Games and Fireworks.

Specially Low Railroad and Steamboat Rates

Will be arranged for, providing for return to Portland and other points after the Fireworks.

Further particulars in small bills.

All are Cordially Invited to Attend.

FOURTH OF JULY

MUSICAL EXCURSION

GIVEN BY THE MARINE BAND

EAST SIDE LA

A Long Meeting of
Held Last

Mayor Stewart's Message—
—Water Commission—
dolence—Routine

[illegible]

EAST SIDE LAW MAKERS.

A Long Meeting of the City Fathers Held Last Evening.

Mayor Stewart's Message—Committees Appointed—Water Commission—Resolutions of Condolence—Routine Business—Etc

There was a regular meeting of the common council last night with Mayor Stewart in the chair. Councilmen present were Murphy, Terry, Martin, Shannon, Stott, Hardie, Lewis and McMahon.

MAYOR STEWART'S MESSAGE

Gentlemen of the Common Council of the City of East Portland: In assuming the duties of my office, I herewith, in accordance with custom and requirements of the city charter, submit a statement of the financial condition of the city, also my views as to what legislation should be enacted which would be of benefit to the city. I find upon examination of the books of the auditor that the bonded indebtedness of the city amounts to $3[illegible]600, as follows: Ten thousand dollars due and payable January 1, 1894; $10,000 September 5, 1891, and $[illegible]000 [illegible] all bearing [illegible] per cent interest. As an offset to the above there is in the hands of the treasurer the sum of $10[illegible] known as the indebtedness fund, which has been raised by a special tax levy, which, if continued, will provide a sufficient amount to pay off all of said indebtedness, when it becomes due. In addition to this, there is in the treasurer's hands as follows: General fund $[illegible]; fire fund $[illegible]; street repair fund $1730 52, showing that the finances of the city are in a healthy condition. Let us endeavor to so conduct the management of affairs that our successors can report similar findings. One of the urgent needs of the city at this time is a system of sewerage. This matter has been discussed by the council on several occasions, but no definite action has ever been taken. In my opinion the time has arrived when the welfare of the city demands that prompt action be taken in regard thereto. The city charter empowers the council to cause drains and sewers to be put in when necessary and assess the cost of same to the property benefited thereby. I am satisfied that all property owners who are interested in the health and prosperity of the city will uphold us in such action, and cheerfully pay their portion of the expense. I would therefore urge upon the council to give this matter their early consideration.

The streets and sidewalks of the city are in very bad condition, and while we cannot in all cases make the improvement of streets compulsory on the part of the property owners, yet I would be in favor of going as far in that direction as we consistently can, and encourage that movement. An important factor in the line of encouragement would be to see that all improvements being made are upon a proper grade, and that contractors be required to conform strictly to the ordinance providing for the improvement. The prosperity of a city depends largely upon the enthusiasm and public spiritedness of its inhabitants. To build up a city requires population, and to aid in acquiring population a city should be made as attractive as possible to the newcomer who is looking for a place to locate. One way of making a city attractive is to provide for it well improved and properly graded streets, require the same to be kept clean and free from permanent obstructions in the shape of piles of cord wood and castaway express wagons, etc., such as some of our streets are continually adorned with. Situated as we are on the east bank of the Willamette river, surrounded by a beautiful fertile and thickly settled country, manufacturing establishments springing up all round us with no sleep [illegible] to limit our building territory, and the tide of immigration pouring into the Pacific Northwest, we should endeavor to profit by our advantage and promote all possible inducements for the building up of a large and prosperous city.

The business relations of the city with the East Portland Water Company are in a very unsettled condition and require our attention. The ordinance granting said company certain rights and privileges in the city for a limited period provided that the rates to be charged consumers shall not exceed the rate then charged by the Portland Water Company, and that the rate to be charged the city for supplying hydrants was to be regulated according to the number located and supplied,—being $15 per month each for five or less, $12 each for ten and all over that number $10 each, the number of hydrants located by the city entitled said company to the sum of $[illegible]00 per month during the continuance of the contract, which expired November 15, 1887. It was but natural upon the part of the council to expect that the company, in consideration of the excessive revenue they received while the contract was in force, would consent to supply the hydrants at a reasonable rate thereafter, but the company has [illegible] the old rate of $200 per month [illegible] a long contract [illegible] refused to grant, and thus the matter stands. Said ordinance also provides that when in the opinion of the council the rates charged consumers by said company are excessive in comparison with their [illegible] appointed to regulate the [illegible] consist of two residents [illegible] by the council [illegible] by the company [illegible] pointed [illegible] select a [illegible]. The council [illegible] and [illegible] unfortunately owing to certain [illegible] by the company [illegible] on his [illegible] ceeded in accomplishing anything. It is evident therefore that the company desire to thwart all effort on the part of the council to secure an adjustment of rates. It is our duty therefore to devote our time and energy in endeavoring to adopt such measures as will relieve the citizens from the oppressive rate that are now being exacted from them by the company. Our experience in this case should [illegible] that in the granting of valuable franchises to corporations the interests of the city should be more carefully guarded, especially to such an extent that the corporation in return for favors received will by the terms of the ordinance be restrained from exacting such tribute from the people from whom they receive such favors.

The recent conflagrations in our neighboring cities should inspire us with the necessity of providing the city with the best fire protection within the gift of our means, and to that end we should encourage the fire department in all efforts put forth to perfect their organization. I have noticed that frequently in contemplated street improvements considerable delay has been occasioned by reason of the grades being unsatisfactory or not established. In order to avoid such delay in the future I would recommend that the city surveyor be instructed to prepare a uniform grade for all the streets in the city. In conclusion let us remember that the citizens have honored us by entrusting in our hands for a time the management of city affairs. Let us endeavor to merit their confidence by carefully guarding their interests.

J T STEWART, Mayor

COMMITTEES APPOINTED

The mayor appointed the following committees for the ensuing year:

Ways and means—Murphy, Hardie, Shannon.
Current expense and accounts—Shannon, Lewis, Murphy.
Fire and water—Terry, McMahon, Stott.
Streets and public property—Lewis, Martin, McMahon.
Landings and wharves—Hardie, Shannon, Terry.
Health and police—McMahon, Stott, Lewis.
Elections—Martin, Murphy, Hardie.
Judiciary—Stott, Terry, Martin.

WATER COMMISSION

From the water commissioners saying that the Water company has made no appointments to said commission and asking the council to take necessary action to fill the vacancies the Water company has failed to fill.

On motion of Murphy the council concluded to appoint two commissioners to fill the vacancies, and the following resolution was adopted:

Resolved, That it appears to the common council that the East Portland Water Company has neglected and refused to appoint commissioners according to the provisions of section [illegible] of ordinance No. 312, and within the time therein provided to act with the two commissioners appointed by the council. Be it therefore further

Resolved, That H [illegible] Myers and Cyrus Buckman, two freeholders and residents of Multnomah county, Or., are appointed commissioners to act with the commissioners heretofore appointed by the council in fixing and establishing the rates to be charged by said water company for water.

RESOLUTIONS OF RESPECT

EAST PORTLAND, Or., June 29.

To the Mayor and Common Council of the City of East Portland—*Gentlemen*: We the undersigned, to whom was referred the matter of drafting resolutions upon the death of the late mayor of said city, the Hon. [illegible] Wheeler, would respectfully submit for your adoption the following resolutions:

C N RANKIN,
J M LEWIS, } Committee.
W W TERRY,

WHEREAS, Death has invaded our ranks and taken from us the chief executive officer of this municipality, therefore, be it

Resolved, That in the demise of the Hon. [illegible] Wheeler, late mayor of our city, who departed this life on the [illegible] day of June, 1889, this city has lost a most [illegible] officer, the city of East Portland a [illegible] incorruptible and capable [illegible] his associates a true and trusted friend, and his family a most kind, [illegible] and honored husband and father.

That the unswerving fidelity to duty which has marked his official [illegible] which he has so faithfully and [illegible] filled for almost two years last past, and his uniform courtesy and gentlemanly bearing, have greatly endeared him to each member of this council, while his modesty of character coupled with an exhibition of true worth and a high order of ability both in public and private life [illegible] won the admiration and esteem of the many with whom he came in contact, that his death has cast a shadow of gloom over the entire community.

Resolved, That this council extend to the bereaved relatives of the late mayor the heartfelt sympathy of each of its members in this their time of sorrow and mourning, expressing the hope that they may find comfort and consolation in contemplating the fact that although he has passed away in the prime of life at a time when all expected the fruition of his hopes for a life of usefulness to his country, he was honored above most of his fellowmen, leaving to them an unsullied name, and that his life while yet ripening into usefulness has been filled with many worthy deeds that have indelibly stamped their impress upon human affairs and interests, the influence of which must be far reaching into the future, and we trust, they will bow with us to the decree that must sooner or later summon the best and greatest of earth to their final reward.

Resolved, Further, that these resolutions be spread at length upon the records of this common council, and that the auditor and clerk be directed to transmit a copy thereof, under his hand and seal of East Portland, to the family of the deceased mayor, and that the city buildings and offices be draped in mourning for the period of thirty days.

REGULAR ROUTINE PROCEEDINGS

PETITIONS

From J H Baylor and others asking that sewerage be provided on H street as the accumulation of filth is fearful; referred to health and police committee.

From E M Zeller and others saying that the reservoir of the East Portland Water Company is in a dangerous condition; referred to the fire and water committee with power to employ engineer and report.

From J H Baylor asking permission to use the street on Fifth and H as he desires to put up a building; referred to the street commissioner.

From T B Collins and others asking the council to appoint [illegible] regular policeman; referred to health and police committee.

From Mary A Stone by J H West asking for an extension of thirty days in which to complete her contract on Twelfth street; granted.

From Thomas R Turnbull asking an extension of thirty days in which to complete his contract on Twelfth street; granted.

From R L Hawthorne by J H West asking an extension of thirty days in which to complete his contract on Twelfth street; granted.

From [illegible] asking that the grades be established in Dunn's addition along Twenty second street between J and D streets; surveyor was instructed to establish the grades asked for.

COMMITTEE REPORTS

From the street committee reporting that they have awarded the work on Cherry street abutting block 7 [illegible] and 31 to S M Keenan & Son; adopted.

From the same committee reporting that they have awarded work on Fifteenth street as follows: W H Merrick, block 31[illegible], $60 40; J V Beach, block 3[illegible]8, $3 06; W H Merrick, block 316, $[illegible] 23; H L Pattie, block 307, $2 89; W T B Nicholson, block 31[illegible], $2 61; J L Sperry, block 306, $16 49; W H Berry, block 3[illegible]8, $1 86; B S Riley, block 319, $1[illegible] 49; W H Merrick, block 305, $54 31; W T B Nicholson, block 304, $130 5[illegible]; [illegible] block [illegible] $2 28, block 303, $2 28; adopted.

From the same committee reporting that they have awarded contracts on D McMillen's street as follows: J H McMillen's addition, Block 57, $15 86; S M Keenan & Son, blocks 7[illegible], 26, 23, 24, 16, 15, 13, 14, 6, 5, $1711 01; adopted.

OFFICERS' REPORT

From the city attorney recommending that the recorder issue executions on the following: lots 1 and 2, block 112, Oregon Real Estate company, $ 91 84; lots 7 and 8, block 111, Oregon Real Estate company, $307 71, all on five. Also on lots 7 and 8, block 316, [illegible], $14 88, on Sixteenth street; adopted and executions ordered.

From the recorder reporting that the street commissioner and city surveyor have each filed their acceptance of work done on Twelfth street contracted to be completed by Fralney & Woods abutting lots 1 and 2, block 2[illegible]2; lots 7 and 8, block 241; lots 5, 6, 7 and 8, block 210; lots 1, 2, 3 and 4, block 2[illegible]; adopted and warrants ordered drawn.

COMMUNICATION

From 100 citizens asking the council to appoint an engineer for the fire engine who will devote all his time to the care of the engine. The petition states that enough money has been raised to purchase horses for the engine and the council was asked to provide a driver for the same. The horses may be used to draw a street sprinkler if desired. Referred to the fire and water committee.

REMONSTRANCE

From property holders remonstrating against a change of grade on Fifth street between Alaska and Adams. The petitioners set forth therein that they have made the grade on said street in compliance with the order of the council, that they have completed their work as property owners, [illegible] that the city did [illegible] the same [illegible] to change the grade [illegible] slip to the property [illegible] surveyor [illegible] the prayer of the petition is for protection in property rights; referred to the street committee and the city surveyor.

STREET IMPROVEMENTS

From the Oregon Real Estate Company asking the council to take steps for the opening and improvement of Holladay avenue from Eleventh street to Thirteenth street, the opening and improvement to consist of the establishment of the grades where not established, the grading and construction of sidewalks; referred to the street committee; recorder instructed to give notice.

From the Oregon Real Estate Company asking the council to take steps for the opening and improvement of Thirteenth street from Holladay avenue to Multnomah street; recorder instructed to give notice.

From the Oregon Real Estate Company asking the council to take action for the improvement of Multnomah street from Eleventh to Thirteenth; recorder instructed to give notice.

From the Oregon Real Estate Company asking the council to take steps for the improvement of Eleventh from Holladay avenue to Multnomah street; recorder instructed to give notice.

[The improvement here contemplated is around the city park.—REPORTER.]

RESOLUTION

Murphy introduced the following: That the recorder give notice of the improvement of Twenty first street in said city from Division street to Bush street by grading the same to the established grade and graveling an eighteen foot roadway in the center of the street. [The resolution gives details of the improvement.] Adopted.

ORDINANCES

Providing change of grades on Holladay avenue near the park; passed.

MISCELLANEOUS

It was carried that the appointment of the two policemen in the First and Second wards be referred to the health and police committee.

The street commissioner was instructed to build a box gutter so as to carry away the water from Division street, as it is causing great damage to adjacent property.

Warrants were ordered drawn in favor of the East Portland Water Company at the rate of $100 a month from the date of the passage of an ordinance authorizing the same; carried.

The committee on landings and wharves was instructed to ascertain if the steamer Cyclone has the exclusive right to land at K street.

Property holders were allowed to permit their shade trees to remain standing until winter on J and Second streets, at which time they can be moved.

Warrants were ordered drawn for the repairs on the engine house without reference.

The council then adjourned.

EAST PORTLAND MATTERS

A carpenters' union was organized Saturday night in [illegible] hall with a charter membership of thirty one. The following is a list of the officers elected: President, A Fider; vice president, Wm Bates; recording secretary, [illegible]; financial secretary, R [illegible]; treasurer, H N [illegible]; conductor, M H Shadinger; warden, W Barlow.

There are about sixty East side carpenters who are members of the union in Portland, who will have their names transferred, so it is stated, to the new union on this side, which will make a membership of about 100. A carpenter made the statement that the first union that was organized in Portland started with only eighteen charter members.

REDUCTION TO WATER CONSUMERS

All water consumers wishing to discount their family rate can do so by paying on or before the 10th day of the month.

EAST PORTLAND WATER CO

NOTES

The *Daily [illegible] Vindicator* made its appearance yesterday evening.

The members of Fidelity lodge A O U W with their families are invited to be present Wednesday evening July 3 at Ross hall.

Next Saturday afternoon at 2 30 o'clock a children's mission band will be organized at the Presbyterian church in this city. All interested are invited to be present.

One dollar a year will cover your doctor's bill if you take Simmons Liver Regulator.

JARVIS GETS THREE YEARS.

A Light Sentence, but It Is the Extreme Penalty Under the Law

A Gambler in the Toils—They Were Fined—Third Trial—Will Announce His Decision—New Suits

Frank Jarvis, who was convicted of incest last week, was sentenced to three years in the penitentiary, the full extent of the law, by Judge Stearns yesterday. He was allowed ten days to file a bill of exceptions. The case will be taken to the supreme court.

Judge Stearns regretted that the full penalty for incest was only three years. He said it was wholly inadequate to the crime of which Jarvis stood convicted, and that justice could not be done to the offender.

ON TRIAL FOR THE THIRD TIME

The third trial of the suit of Meyer, Wilson & Co v. Thompson, DeHart & Co was begun before Judge Shattuck yesterday. The first jury disagreed and the second returned a verdict for the defendant, which the supreme court reversed. Meyer, Wilson & Co sue for about $2000. They claim that they sold a cargo of coal to arrive to Clarke & Co, whom Thompson, DeHart & Co bought out; that when the cargo arrived defendants refused to accept it, and thereupon it was sold on defendants' account and the deficiency charged to them.

POLICE COURT

Judge Tanner yesterday disposed of the following cases in the police court: Larry McCue, William Fritz, A Lee [illegible] and Charles Jones, simple drunks, fined $2 each; D O'Connor, S Holdman and C J [illegible], drunk, $5 each; J Sullivan, same charge, $1[illegible]; Fred Fulcher, fined $1[illegible] for discharging firearms within the city limits.

The case against Ned Hart, charged with assaulting P H Brooks with a dangerous weapon, to wit, a club, was continued until this afternoon, the defendant in the meantime being held under $300 bonds.

NEW SUITS

Tilson & [illegible] Overland [illegible] suit against the Portland Consolidated [illegible] Company in the state circuit court yesterday to recover $1449 for failure to deliver brick according to contract.

Walter Young sued Mrs M [illegible] Laster to recover $128 50.

The latest complaints for divorce are W T Slatten vs Elizabeth J Slatten, for desertion, and Roxinna C Snell vs Edward Snell, for desertion and cruelty.

GAMBLER BRADY ARRESTED

George Brady, indicted for gambling three years ago, was arraigned in the criminal court yesterday. Brady is the witness in the Olds case who testified that during the recent races at City View park he ran a wheel of fortune which he called a "square game." The officers have been on the lookout for Brady for several months, and when they found out he was in town they arrested him.

FINED FOR KEEPING DISREPUTABLE HOUSES

Mrs L Amden, Louise Duport and Mary R Cook, indicted for keeping disreputable houses, pleaded guilty in the criminal court yesterday and Judge Stearns fined them $250 each. Seventeen others charged with the same offense pleaded not guilty. The trial of Miss Martha [illegible] was set for July 5. The trials of the other sixteen were not set.

MARRIAGE LICENSES

Marriage licenses were granted yesterday for Walter H Peart, aged 27, and Lou A Ward, aged 19; J W Epley, aged 30, and Mamie Thompson, aged 18.

BROWN VS BIGNE

This morning Judge Stearns will announce his decision on a demurrer in the case of L D Brown vs John Bigne et al.

THE RECORD CONDENSED

STATE CIRCUIT NO 1

Merchant National bank vs George Lore & Co; motion for order [illegible] plaintiff to interplead denied.

Jacob Wirgey vs [illegible] Carlon; plaintiff allowed three days to reply.

STATE CIRCUIT NO 2

A Ferrera vs A Mercante; motion to strike out parts of reply argued and submitted.

John A Beck vs Paul Schulz; motion to strike out parts of amended complaint allowed.

D J Piddock vs Mollie A Piddock; motion for attorney's fees passed.

George B Markle vs George L Haye; demurrer to complaint overruled and defendant allowed ten days to answer.

Henry Davenport vs Henry S Davenport et al; same.

Alexander B Hamilton vs Margaret Stevens et al; referee's report confirmed.

State vs Joseph Gallo; allowed until Friday to move for a new trial.

Hannah M Bronsen vs James C Bronsen; demurrer overruled and default granted.

UNITED STATES DISTRICT COURT

Clerk's report of funds in registry presented and ordered filed.

United States vs James Reeves, arraigned upon information charging him with horse stealing; sentenced to pay fine of $1 and three months imprisonment.

United States vs Morris Bookstrom, selling liquor to Indians, pleaded guilty and fined $10.

United States vs Frank Morgan, same; fined $10.

CASE OF CAPITAL PUNISHMENT

Burglars in North Portland Escape Arrest, but Their Dog Is Hung by the Neck

Burglars entered the house of Mrs M McMann on the corner of Fifteenth and Q street several days since and carried off a quantity of wearing apparel, a canary bird and a check for a small sum on the First National bank.

This was done during Mrs McMann's absence. When she returned she not only discovered the fact that a robbery had been committed, but also a large uninvited dog under a bed in her bedroom. The dog was of a despicable yellow or blondish color and of the cur variety. After making repeated efforts to get him out by coaxing, threatening and hurling a shower of bricks at him, Mrs McMann further discovered that the canine was possessed of staying qualities akin to that of a federal office holder. All other devices proving futile, a rope was procured and the dog was lassoed. This was a success.

The dog was known to be guilty of trespassing, and it was further believed that he was in some way connected with the burglars who had plundered the house. It was therefore decided that he should atone for his own crime and that of his masters at the same time. He was taken out to the wood shed, the rope was thrown over one of the rafters and the convicted offender was hung by the neck until he was dead, dead, dead.

This is the first case of capital punishment inflicted on a canine reported in the state for many years.

QUESTION AND ANSWER

THE DALLES, Or., June 29, 1889.

TO THE EDITOR OF THE OREGONIAN:

In a recent issue of your paper there is an editorial on the single tax theory that I should like to analyze from beginning to end, [illegible] your space [illegible] pleasure to that extent. I shall call attention myself to a portion of our paper [illegible] the relation of the tariff to the poor man [illegible] say. Most this is however that he [illegible] our own country [illegible] cheap as elsewhere in the world [illegible] in many articles. The sugar tax is almost the only tariff tax that the poor really help to pay.

There is today a protective duty on cotton, tin plates, wool, woolen goods, glass and earthen ware, and in fact on pretty much everything that the poor man consumes except food products, and some of these do not escape. [illegible] you [illegible] these things are produced as cheaply here as abroad? how do you defend the duty on them? If they are not produced as cheaply here, how can the poor man avoid paying either the tariff tax or its equivalent in the higher price of the home made articles? If your claim is correct, how do you explain the statements so persistently made by republican speakers during the last campaign that these things are not produced so cheaply here as abroad? By kindly answering these questions you will confer a great favor on many besides myself who have heretofore sought their solution in vain.

GEORGE F WEST

[The question is often asked why, if certain articles of home production are cheaper than those of foreign production, a protective tariff is necessary. Simply to prevent the foreign manufacturer, who has cheaper labor, from greatly underselling the American product, which he would do at a loss to himself till he had shut up the American factory, when he would immediately advance the price so as to make up his losses and a great profit besides. If protection were removed the English trusts could and would attack in detail every productive industry in the United States and greatly cripple, if not utterly destroy, very many of them.]

THREE ASCENTS WILL BE MADE

Mount Shasta Will Be Illuminated on the Fourth—Adams and St Helens To Be Scaled Later

Secretary Steel of the Oregon Alpine club yesterday received a dispatch from J D McDowell of Sisson, California, stating that Mount Shasta would be illuminated by a party on the Fourth of July at 9 30 o'clock in the evening.

Mr Steel says the Californians are no doubt under the impression that Mounts Hood, St Helens and Rainier would be illuminated simultaneously on the evening of the Fourth, so he answered Mr McDowell that owing to the Seattle fire, which had absorbed considerable of the time of the members of the club as well as the funds set aside for illumination purposes, the project had been abandoned.

Mount Hood will not be illuminated this year, but on or about the 10th or 12th of the month a number of Portlanders will go on a trip to St Helens and Adams. The trip will combine pleasure and scientific research. Mr Steel has sent to Baltimore for an improved heliograph, which will be used for exchanging signals. In addition to this quite a quantity of powder will be taken along for illumination purposes. Two copper boxes similar to the ones fastened upon the summits of Mounts Hood and Shasta are being made, and one will be deposited on each of the mountains. An old time scout from Vancouver will conduct the pack train on the trip.

The intention of the Alpine Club is to publish the records kept in these copper boxes about once in every ten years. Each party climbing the mountains is expected to register their names in the book kept in the box and to write an account of their trip with such observations as may be of interest or of scientific value. The book on Mount Hood already contains considerable material for a readable article, some of the trips never yet having been published, but the coins and other relics deposited therein have been stolen.

The party is not yet fully organized and its personnel will not be known until a few days before the start is made. Most of the members of the original illumination party will go.

SALES OF REAL ESTATE.

List of the Deeds Filed for Record in the Recorder's Office Yesterday

Yesterday 13 deeds, aggregating $28 120, an average of $2168, were filed.

Since January 1 to date there have been filed 3[illegible] deeds, aggregating $7 235 711 01.

OF INTEREST TO LAWYERS

Meeting of the Committee of Examination—Rules Regarding Applicants Adopted, Etc

At a meeting of the committee of examination [illegible] for admission to practice in the federal courts for the district of Oregon held at the office of Hon George H Williams on Saturday last, Judge Williams was elected chairman and Mr L B Cox secretary of the committee and the following rules were adopted:

First. Admission to practice in the court of last resort of any state or territory or any federal court of the United States, or [illegible] or superior jurisdiction, shall be taken and deemed to be of [illegible] excellence of the competency of an applicant to practice in the circuit or district court of the United States for the district of Oregon.

Second. The proof of admission to practice in the supreme court of the state of Oregon shall be made by the duly authenticated certificate granted to the applicant or by reference to an authoritative publication of the rolls of the bar admitted to practice in that court; in all other cases the proof shall be made by the duly authenticated certificate of admission to practice before some one of the other courts above mentioned. [illegible] the applicant shall submit such proof to the members of the committee whose endorsement is sought.

Third. In case the applicant shall be unknown to the members of the committee whose endorsement is sought he shall at the same time tender to such members the written certificate of two practitioners before the court to which admission is sought to the effect that they are personally acquainted with the applicant and that he is a man of good moral character and professional standing. The applicant shall also present such certificate to the secretary of the committee, and the same shall by him be filed and preserved.

The members of the committee are Messrs G H Williams, C A Dolph, J I McArthur, W B Gilbert, F R Strong and L B Cox.

NEWS NOTES FROM MILWAUKIE

Attractiveness of the Place—New Woolen Mill—Buildings—Church [illegible] Camp Meeting

The bees in Mr Henry Hoesly's apiary have been remarkably busy this season. Of seventy one hives he will take out nearly two tons of honey.

Ground for a new woolen factory has been broken on the premises owned by Mr C Bunot. The machinery is to be propelled by the ample water power of a branch of Milwaukie (Johnson) creek.

The new two story building on Main street of Mr John W[illegible] has been completed and the same [illegible] occupied as a grocery store and provision [illegible] the owner [illegible] of the building constituting the new firm.

The new German M E church is rapidly approaching completion. The contractor, Mr J Tschirner, is now at work putting on its [illegible] paint. The structure occupies a most sightly location, adds an ornamental and credit to the town of Milwaukie.

The prolific [illegible] of the [illegible] hard [illegible] of the town and vicinity borders on the wonderful. The great abundance of the cherry [illegible] etc. fully equal to more fruit [illegible] establishments in Portland and a tender market. One of our heaviest orchardists [illegible] of cherries was so low [illegible] present [illegible] to make the raising of this fruit remunerative. The outlook for a bountiful crop of prunes, plums, pears, etc, was never better.

Among the many rural suburban towns of Portland there is none more attractive and lovely than Milwaukie, connected with the metropolis by three routes of travel, viz: The narrow gauge on the west, the Oregon & California on the east and the river route by different lines of steamboats. A fourth line of public travel, the Portland & Oregon City motor line, is being agitated and will soon become a reality. The spirit of progress is manifesting itself in more ways than one.

For a disordered liver try BEECHAM'S PILLS.

THE DELAGOA BAY DIFFICULTY

Portugal Will Be Held Responsible for Any Loss to British Investors.

LONDON, July 1.—In the house of commons this evening Sir James Ferguson, parliamentary secretary to the foreign office, stated that Portugal had canceled the Delagoa bay railway concession, notwithstanding the representations of England. The Portuguese government has been informed by England that Portugal would be held responsible for any loss which British investors might suffer for her action. The legal questions involved are being considered by the government and proper steps will be taken to protect British residents at Delagoa bay.

In the house of lords today Lord Salisbury stated that in order to provide against any action by the Portuguese inimical to British interests England had ordered three ships to proceed to Delagoa bay. This force would be sufficient to cope with any difficulty that might occur.

He considered Portugal's action in cancelling the railway concession is high handed and unjust, and the government has informed Portugal that they would hold her responsible for all British losses.

THE REPORTS OF VIOLENCE DENIED

LONDON, July 1.—The dispatches from Delagoa Bay are reassuring and the reports of violence on the part of the Portuguese are denied. There has been no disturbance. The agents of the railway company have handed over the line to the Portuguese officials and have made a valuation upon the work they have already done. The directors of the Portuguese company at Lisbon, with which alone the Portuguese government has treated, have informed the government that they have no intention of resisting the decree canceling the concession, but will seek legal redress.

In political circles here it is asserted that the concession and the Portuguese laws fully guarantee repayment of the capital which the railroad company has sunk in the enterprise.

GUNBOATS ORDERED TO THE SCENE

CALCUTTA, July 1.—British gunboats have been ordered to proceed to Delagoa bay.

THE GOVERNMENT SUBMITS TO ARBITRATION

LISBON, July 1.—The government has agreed to Lord Salisbury's proposal to submit the Delagoa bay question to arbitration.

IN THE HOUSE OF COMMONS

A Motion Regarding an Investigation of the Government's Action Rejected

LONDON, July 1.—In the commons this evening Sexton moved to adjourn in order to challenge the government to explain the events regarding the suppression of the Nationalist meeting at Cork yesterday, which he said was a memorable and disgraceful event under the present regime of brute force.

Redmond accused the government of promoting bloodshed and turmoil.

Gladstone said that the government had failed to reply to Sexton's allegations, which required the fullest explanation. The ministry must not complain if the matter were raised again.

Balfour denied that there was the slightest prima facie case against the government. The leaders of the mob were responsible.

Sexton's motion was rejected.

A SECRET CONSISTORY.

The Pope Grieved Over a Recent Speech by Premier Crispi

ROME, July 1.—The pope, at a secret consistory held yesterday, referring to the speech made in the senate in which Premier Crispi dwelt upon the hopelessness of the attempts made to reconcile the vatican and declared that the temporal power of the pope was dead, said: "I have summoned you at a time of very great difficulty. In my allocution I spoke exclusively of one act done against Rome, but there were many others. Statesmen dare even to bring forward accusations from the parliamentary tribune as though we were able to desire or not to desire what relates to our sacred rights." Secrecy as to the proceedings was imposed upon the cardinals present and a discussion lasting an hour followed.

"WITH STANLEY'S REAR COLUMN"

A Chancery Court Restrains the Author of the Work From Its Publication

LONDON, July 1.—The chancery court has restrained one of Henry M Stanley's transport officers from publishing the book called "With Stanley's Rear Column." The court holds that the publication would be a breach of agreement between those engaged in the expedition, which was not to publish any accounts of it until the official report was issued.

RIOTOUS STRIKERS

The Police Force of Cardiff, Wales, Unable to Prevent Violence

LONDON, July 1.—The striking tramway employes at Cardiff are rioting. The companies tried to run cars with new men under police escort, but the strikers blocked the track and threw stones at the cars, hitting the passengers, police, drivers and horses, and smashing the windows. Several were arrested. The police force is not large enough to cope with the strikers.

The Shah in London

LONDON, July 1.—The shah of Persia arrived this morning.

An immense crowd of people was gathered on both sides of the river for a distance of seven miles as the launch carrying the shah passed on the way to Buckingham palace.

The Prince of Wales and sons received the shah at Gravesend and accompanied him up to the end of the Westminster palace stairs. The Princess of Wales and daughters received the shah at Buckingham palace.

ONE HUNDRED DOLLARS DONATED

That Sum of Money Generously Given to Aid the Johnstown Sufferers

Last evening the regular monthly meeting of the Portland Hibernian Benevolent Society was held at the hall, President Thomas Kearney in the chair. There was a large attendance.

After the usual business was transacted the suggestion was made that the society donate $100 to the Johnstown sufferers. The suggestion met with instant and unanimous approval. A motion was made and seconded that that sum be appropriated out of the treasury. The vote was a standing one and it was unanimous.

It was also determined that the sum should be forwarded to Johnstown through THE OREGONIAN. Accordingly, after the meeting last evening $100 in gold coin was deposited in this office by the president in behalf of the society, and it will be forwarded without delay. This generous action on the part of the members of the oldest Irish society in Oregon is worthy of all commendation.

PERSONAL

PORTLAND. TUESDAY, JULY 2.

CORRUPT POLITICAL METHODS.

Senator Edmunds, in the June *Forum*, discusses the question as to how to counteract corrupt methods in American politics. He proposes improved registration laws, administered by intelligent, reputable responsible men taken from all parties. This sounds well, but the great obstacle to this reform is the unbroken opposition of the democratic party in every state to the enactment of such laws. This opposition is so effective that registration is not required in Delaware, Indiana, Kentucky, Tennessee and Georgia, and is absolutely prohibited by constitutional provision in Arkansas, Texas and West Virginia, while in Missouri it is only required in cities of 100,000 inhabitants and over. Senator Edmunds next demands that elections shall be conducted by officers of the highest character and ability representing all parties, under provisions which shall secure the privacy of the voter and the secrecy of his ballot, and at the same time fairness, equality and justice in the conduct of the election officers. Here again we find the democratic party standing up stiffly against ballot reform, for Governor Hill, of New York, has twice vetoed bills of this sort. Senator Edmunds further demands the public canvass of the votes, witnessed by reputable men of all parties and the publication of full accounts of election expenses and the giving of the final returns in the same open way. Here again we find the democratic party solid against a reformed administration of the machinery of elections. Mr. Edmunds would also provide for the prompt "hearing and decision of disputed cases by the courts, and the punishment of false and illegal registration, bribery in connection with registration or elections, or the aiding and abetting of bribery or the attempting or conspiring to bribe, register or vote illegally," and insists "upon more stringent qualifications of jurors, and the oath of all persons registered, all voters at the polls, all persons elected or claiming election, that they have been entirely free from attempts to falsify or change votes in canvasses or returns." He would limit the influx of foreigners and provide for their naturalization under more stringent terms. Here again the democratic party presents a solid front of opposition. The naturalization laws were once stringent, but the democracy made them loose and liberal to the point of danger because the great mass of immigrants that flocked to our great cities were certain in their ignorance to vote the democratic ticket. Any serious attempt to-day to check the tide of foreign immigration would be vigorously opposed by the demagogues of the democratic party. Senator Edmunds's final proposition is that corrupt political methods must be met by the better education of the voters and their children, who need to be taught early and late, at home and abroad, in school and from the pulpit, that every citizen of the republic in town, district, city, state or nation is personally a real factor for good or ill in the great sum of the general welfare, that his own opinion—the best effort of his mind and heart—is the sole true guide for him, and that, in spite of corrupt temptations or the blare of trumpets or the flames of torches, or the excitements of contest or victory of one party or another, his mission for himself and his children is to follow the light that his knowledge and his conscience perceive, and not that of any other man."

This really is the only effective opposition to corrupt political methods, for without this education be effectively taught the legal remedies urged by Mr. Edmunds will prove of little avail, for just as no lock was ever devised that an able burglar could not pick or break, so no legal defenses will protect the purity of the ballot box from violence or fraud, unless a virtuous public opinion hedges it round about. The truth is that the extent of political corruption fairly reflects the average moral sense and mood of the people. The popular notion that a man will often be corrupt in politics or connive at political corruption and yet be a man of stern integrity in all other relations of life is an error. Your political rascal will be a rascal in business, a traitor in social life, whenever he can be so without injury to his material interests or risk of punishment.

The rascal in business and the rascal in politics are one in spirit and purpose. Given a low standard of morality and honor in business, and you will be sure to find a low philosophy of politics, and vice versa. A nation where great fortunes in business and great success in the law are won by immoral methods is a nation whose politics will be sure to be invaded by able and energetic engineers of corruption. Our politics but reflect our popular business morality.

TO COLLECT FOSSILS IN OREGON.

The John Day country in Eastern Oregon is rich in fossil remains. It is doubtful whether any other part of the American continent offers so fine a field for the research of the palæontologist. In the large and varied collection made by Professor Thomas Condon, at Eugene City, there are many remarkably fine fossils from the John Day region, and great numbers have been picked up that never have been placed in any collection, and some have not even been preserved.

The fame of this part of Oregon as a rich fossiliferous region has become known to palæontologists in the East. Princeton college has fitted out a scientific expedition for the John Day country, which may by this time have arrived at Baker City, whence the party will take wagons for the field of research. The party is under direction of Professor William B. Scott, of the department of geology and palæontology of Princeton, and consists of about ten men. They left Princeton for Oregon on the 25th of June.

It is stated that the formation in the John Day country is of the late miocene period, and that it has been subjected to less disturbance there than in many other localities; so that fossils are quite numerous, and remain in a state of remarkable preservation. Some assert that the bulk of the remains of that period must be those of carnivora, but Professor Scott is especially anxious to discover deposits that will throw light on certain disputed theories with regard to the ancestry of the elephant, and from specimens he has received from the John Day region he has strong hopes that he will succeed. He also intends to investigate the nature of the geological strata of that part of Oregon, with the purpose, if possible, of synchronizing certain geological periods. But the main object of this expedition is to collect fossils for the biological museum of Princeton college, which already contains the greatest collection of American fossils in the world. Professors Scott and Osborn and Dr. F. C. Hill, all of Princeton, are also getting ready a colossal work upon American fossil mammalia, which is expected to be an authority in that department.

It would be an excellent thing if some of our men of Oregon who devote themselves to scientific study would seize the opportunity to meet the Princeton party in the John Day country. It is now the vacation season in our colleges, and among our professors there is a considerable number who might devote some weeks to this work with great satisfaction to themselves and advantage to this branch of natural science in our state.

For once the Prince of Wales has a disagreeable job imposed upon him. His royal mamma has turned over the entertainment of the shah of Persia to him, not caring to repeat the disgusting experience which she had with him on a former visit. He is filthy and disagreeable in the extreme—the sort of a guest whose departure must be followed by paint, paper, refurnishing and fumigating, and with his half hundred followers creates quite a bill of expense in this line in the space of a very few days. Her majesty will probably foot the bills, but it will devolve upon the heir apparent to hold his nose and show the shah around.

WHY SKEPTICAL.

On Sunday a Chinese convert to Christianity preached the Gospel to his countrymen at the corner of Alder and Second streets, but he preached to dull or indifferent ears. This should surprise nobody. The average Chinaman is not imaginative, but he does not lack a certain acuteness of understanding, and does not need to go far for reasons to justify his skepticism. He knows by experience and by the history of his country that Christian nations, whether in war or peace, have treated China and her people with unparalleled cruelty and duplicity. He knows that Christian England blew open the ports of China, sacked her cities and massacred her helpless people simply because China, in the exercise of her paternal government, tried to exclude opium from her territory, and thus threatened to ruin the prosperity of the English merchants engaged in making opium in India for the Chinese market; he knows that the troops of Christian England and France looted Pekin without a particle of justification; he knows that the United States forced China to open her ports to our trade; he knows that, in spite of a solemn treaty, the Chinese on this coast have been beaten, robbed, thumped and murdered with impunity by the rascally white vagrants and demagogues of our Christian nation; he knows that he is cheated at every opportunity, that the Christian's dog barks ceaselessly at the Chinaman's heels, that the Christian children are suffered without any serious rebuke to mob a Chinaman in order to make a holiday; he knows that he is mulcted in taxes that in equity he ought not to pay; he knows that the Christian congress of the United States legislates in violation of international equity, courtesy and justice against the Chinese, as the United States dares not do in dealing with any of the powers of Europe with whom we have made solemn treaties. Knowing all this, why should not a Chinaman grow skeptical concerning the superiority of Christianity to his own faith, when he remembers that the Christian nations of the earth have vied with each other in switching and swindling him at every opportunity?

The Spanish inquisition was not calculated to convert the unbeliever, and the treatment of the Chinese at home and abroad by Christian nations is not calculated to convert the Chinese immigrant to Christianity. If the Chinese never saw any Christians save the handful of missionaries that reside in China he might hold Christianity in respect, but the Chinese who have lived in the United States, who know that their country has been wasted wantonly by the arms of Christian governments, are just fied in the opinion that the nations of the earth that pretend to follow Christ follow him so far behind that they seldom keep him in sight. In these circumstances what wonder that these heathen have no ear for the gospel of a people who practice robbery, murder, extortion, persecution and duplicity while pretending to believe in a nobler moral philosophy than that of Confucius? The skepticism of the Chinese recalls the sarcasm of the Turk who assured the American merchant who was afraid to leave his goods on the docks of Constantinople over night: "Fear not, there is not a Christian within twenty miles."

A MENACE TO OCEAN TRAVEL.

Within the past fortnight two transatlantic steamers have narrowly escaped destruction from collision with icebergs. One of these, the Saale, with a total of 817 people aboard, found herself in sudden proximity to a huge mass of ice a quarter of a mile long and towering thirty feet above her decks, and escaped a shock which meant certain destruction by but a few feet.

Formerly collision was but one of the many dangers that menaced the lives of those who went down to the sea in ships. Now it stands comparatively alone as an element of disaster in ocean travel. A leak may be sprung which will fill and sink an old vessel in a few hours, but, as was demonstrated in the case of the immigrant ship Danmark, that so suddenly went to the bottom in calm seas a few months ago, the chances are greatly in favor of the passengers being rescued by passing craft. As to storms, the skillful navigator who commands the modern steamship laughs at danger from this source, so remote is the possibility of grave disaster therefrom. A day or two of delay in reaching port and an added infliction of a few hours' sea-sickness are the most serious results of the fiercest storms to these powerfully built and magnificently equipped vessels and their army of passengers.

But the science that has reduced danger from this source to the minimum has increased rather than diminished the danger from collision. It has given to the traveling world mammoth vessels "feathered with sail and spurred with steam," which make the passage from port to port in six or seven days, but to do this they drive at full speed through the fogs off the Banks and across the pathway of moving mountains of ice, and should they strike anything, the momentum of the vessel makes destruction almost certain.

While vigilance, which is supposed to be always on duty at sea, is able to abate the danger from this source greatly, it cannot wholly remove it. Thus in the case of the Saale, above referred to, the lookout discovered through the fog the huge mountain of ice only when the steamship, going at a tremendous rate of speed, was right upon it, and according to the report she "just cleared the gleaming mass by a hair's breadth and shot away amid a shower of fragments from the ice monarch as a parting menace."

There is but one way of further diminishing the danger to ocean travel from collision, and that is to be satisfied with a slower rate of speed and an avoidance during the season of icebergs of the "shortest route," which is directly in the path of these grim visitors from the North. Some eight years years ago Captain Stockford, then commanding one of an American line of steamships running between Philadelphia and Liverpool, printed in a prominent magazine an article pointing out a southerly course, by which the Newfoundland fogs could be escaped, thus giving the lookouts a chance to discover craft and icebergs that might beset the path of these vessels. His proposition was sustained by copious extracts from his records during many voyages, and his premises were never disputed. But the track that he worked out increased the distance some 250 miles, or about half a day's travel to our modern "ocean greyhounds," and this, in the present feverish desire to reach port at the earliest possible moment on the part of the passengers, and the equally eager determination to beat the record on the part of owners and commanders, was sufficient to cause the suggestions of Captain Stockford to be ignored and speedily forgotten. Steamship companies that spend money without stint in the effort to reduce to the minimum the danger of disaster at sea from all other sources trust to luck to escape the menace of collision, which the high rate of speed and the fogs of the shorter route impose rather than be half a day behind the best time possible from port to port.

It is doubtful if this eager craze to make haste would have been in the slightest degree abated, even during the comparatively short season of fogs and icebergs, had the Saale, with her more than 800 souls, been sent to the bottom of the sea by the grim force of the ice monarch that disputed with her the right of way a few days ago. So bent is the human mind to the problem of annihilating distance and overcoming space that it would not be likely to be turned from its purpose by the sacrifice of a few hundred lives and the loss of one out of a fleet of magnificent steamships.

Mrs. Whiteling, who was hanged in Philadelphia last Tuesday, for the murder of her husband and children, was the first woman ever executed in that city, though six others have at various times paid the extreme penalty for murder in Pennsylvania. Every effort was exhausted to prove the woman insane, but without avail. The minister who was faithful in attendance upon her until the last summed up her case as follows: "I think Mrs. Whiteling entirely sane. Hers is a low order of mind, and her mental powers, which were small in the beginning, have never had much added to them." This is a diagnosis of a very common case, that, simply presented, would serve to relieve the minds of perplexed jurors concerning the mental condition of murderers whom they are asked to excuse on the ground of insanity. A person does not need to be insane to be vicious. "A low moral nature combined with small mental powers," though not making its subject a fit inmate for an insane asylum, forms a combination of which society may well beware, and which juries should hesitate long before turning loose upon a community after a few years imprisonment.

A man does not need to be very old to recall the assertion which was the basis of many a fiery speech in the years immediately preceding the rebellion, that the cotton industry of the south could not be maintained without slave labor. Nor is the fact forgotten that the presumption that "cotton was king" was the basis upon which slaveholders built their hopes of foreign intervention in favor of the South during the struggle for independent nationality. The North went quietly along, however, and humanity and freedom triumphed, leaving cotton to take care of itself by the aid of free labor and the enterprising spirit for which the abolition of slavery made room in the South. Before the war the highest annual record of the cotton crop was 5,300,000 bales. The crop of last year is not yet entirely out of the hands of the planters, but those whose business attention is directed toward the product place it at 7,100,000 bales for 1888, while this year, with average weather, it will not fall short of 8,000,000 bales, worth about $400,000,000, an amount five times more than the entire gold and silver product of the country in a year.

The effort to secure the pardon of Bob Younger, who has served thirteen years on life sentence in the Minnesota state prison for the murder of a bank officer in Northfield in 1876, has developed the fact that during the period of his incarceration twenty-six men serving life terms for murder have been pardoned; that the average term served by these has been but seven years, and in no case was it pleaded that the convict did not personally do the killing for which he was convicted. The pardon record of penal institutions will have to undergo material change before the opponents of capital punishment can make it entirely clear that it is not to the best interests of the community to hang the cold-blooded and malicious murderer. Armed with this record, the notorious Younger brothers should begin suit at once against the commonwealth of Minnesota for detaining the guiltless Bob [illegible] an unusual length of time in prison on his life term.

Bishop Whitehead, of the Pittsburg diocese, has issued a pastoral letter calling upon Episcopalians to rebuild St. Mark's church and rectory, destroyed by the Johnstown flood, and also to build a memorial school house and orphanage for the benefit of the children of the parish whose parents were drowned in the awful rush of water. This is an example of practical benevolence that other denominations would do well to imitate. The plan may be objected to because of its exclusiveness as applying only to "our people," but to this it may be answered that if each church would take care of its own, the number left to non-sectarian charity would be greatly diminished, and all would stand a better chance of being supplied. It is a well established fact that what is everybody's business is nobody's business, and this is an additional reason why each should be encouraged to care for its own.

Suitable preparation has been made for the increase in the national family that is about to take place. Secretary Tracy has ordered that all flags now in service as ensigns and Union Jacks on board the ships of the navy and at the navy yards be called in after July 1st, and new ones bearing forty-two stars on the blue field be substituted. The work of supplying these flags has been in progress for some time in the rigging loft of the navigation building of the Brooklyn navy yard. The staff of flagmakers is composed of seventy women, most of whom are widows and daughters of deceased naval employes, and three men, all of whom are experts in the work. The best material obtainable is used in the construction of the "stars and stripes" that will be floated by the United States navy.

Mrs. Margaret E. Sangster, of Brooklyn, has succeeded to the editorship of *Harper's Bazar*, vacated by the death of Mary L. Booth. She is described as a woman in the prime of intellectual vigor and with a wide acquaintance among literary workers. She has a strong, almost masculine face, but possesses womanly tact and courtesy that soften her manner and wins confidence and admiration. Her work will necessarily for a time be subject to the most trying ordeal, that of comparison with that of her talented predecessor, but her friends feel sure that she will prove her capability to fill the place to which she has been called, and will be able to invest it with a freshness and originality that will be welcome after a time to her readers.

Sarah Althea Hill Terry has about concluded negotiations with an Eastern theatrical manager under which she agrees to deliver a series of lectures in cities on the Pacific, taking as her subject the Sharon case. No doubt the woman could furnish some spicy revelations. If her husband would enter some dime museum now the combination would be complete.

England is continually boasting of her superiority over America in the extent of her merchant marine. This is true, but the United States has more miles of railroad in actual operation than any other country, and we have the satisfaction of knowing that every mile of railroad adds to the actual wealth of the nation.

What with the celebration of the glorious Fourth, the admission of four new states, the Sullivan-Kilrain prize fight and the extra antics advertised for the Salvation Army, July promises to be a lively month. The prize fight will of course be the grand feature in the festivities.

The public ought not to be surprised at a rise in baking powder stock, but it will marvel somewhat nevertheless, at a recent sale of a block of Royal Baking powder of 685 shares for about $230,000. This is at the rate of about $3400 a share for stock that was worth $100 when the company was organized. When it is considered that this baking powder company is but one of from half a dozen to a dozen doing an immense business in this country, it must be conceded that the United States is a nation of biscuit eaters, as well as of dyspeptics.

Pleasant to the taste and readily taken is [illegible] [illegible] [illegible]

MEETING NOTICES.

Garfield Post No. 3, G. A. R.—Regular meeting of Garfield Post No. 3 this (Tuesday) evening at 8 o'clock, at Grand Army Hall, corner First and Taylor sts. The [illegible] cordial invitation to comrades visiting the city and to [illegible] to [illegible]. R. M. McMASTER, Adjutant.

Portland Lodge No. 55, A. F. and A. M.—A special communication will be held this (Tuesday) evening at 8 [illegible]. All Master Masons in good standing fraternally invited. Work in M. M. degree. SAMUEL CHILDS, W. M. I. W. PRATT, Secretary.

Ellison Encampment No. 1, I. O. O. F.—Members are requested to attend at the Odd Fellows Hall Tuesday night, July 2, 1889, at 8 o'clock. A full attendance requested. Business of importance to be transacted. Sojourners accepted. By order [illegible], Scribe.

Multnomah Council, Knights [illegible]—A stated meeting of this council will be held this (Tuesday) evening at 8 o'clock. Business: three petitions for degrees. A general attendance desired. D. W. TAYLOR, Commander. R. G. WHITEHOUSE, Recorder.

Castle Lodge No. 11, K. of P.—Installation of officers this (Tuesday) evening at 8 o'clock. Members requested to attend. Visiting knights [illegible] invited. R. RATHALL, C. C.

[illegible]ORTLAND AND VICINIT[illegible]

A Practical Test.—A New York p[illegible] a very recent [illegible] A practica[illegible] [illegible] given at New [illegible] inventor. The [illegible] of Columbia[illegible] [illegible] the Company No. 3 of the [illegible] [illegible] A frame building [illegible] smoke from burning salt hay [illegible] Mr. [illegible] tered the bui[illegible] [illegible] the respirator, while Assistant [illegible] of the New York fire de[illegible] [illegible] without the [illegible] After three minutes in the [illegible] protector [illegible] emerged in a sorry c[illegible] [illegible] continued for ten min[illegible] [illegible] perfectly fresh and [illegible] could have remained half an hour lo[illegible] [illegible] then tested the respi[illegible] [illegible] The respirator consists [illegible] rubber mask fitting over the face and [illegible] with glass openings, sponges and [illegible] tube descending to within a short [illegible] the ground.

Street Mendicants.—The profes[illegible] street mendicants, most of whom play [illegible] [illegible] the sympathies c[illegible] [illegible] a class of people whom the [illegible] of charities is unable to reach [illegible] [illegible] a more princely living by par[illegible] their deformities and grinding out sol[illegible] [illegible] A gentleman who wa[illegible] [illegible] for ten [illegible] counted e[illegible] [illegible] who dropped money into the [illegible] each contributed on an 5 cents the tot[illegible] [illegible] cents and at this ra[illegible] [illegible] be conceived why p[illegible] [illegible] organized as[illegible] [illegible] of charity.

Magnificent Excursion Steamer.—[illegible] beautiful and fleet steamer Multnom[illegible] known to be one of the best excursion [illegible] the Northwest. Its cabins are [illegible] and beautifully lined with wi[illegible] [illegible] and mirrors affording to hundreds a [illegible] outlook of passing scenery while in [illegible] owners claim they take down the [illegible] no boat on the Columbia. Rec[illegible] Multnomah made the distance [illegible] [illegible] miles between Multnomah Fal[illegible] Vancouver in two hours. This steam[illegible] [illegible] chartered by the Albina M. E. c[illegible] [illegible] their Astoria trip on the Fourth, a[illegible] [illegible] through without stopping for f[illegible] passengers both ways, crack speed [illegible] to be made. Fare $1 the round [illegible] children 50c.

First Regiment Excursion.—Ther[illegible] a very large crowd at Vancouver [illegible] every means of transportation w[illegible] [illegible] to the utmost. The First reg[illegible] [illegible] in order to provide for the co[illegible] their friends as well as themselves [illegible] chartered the steamer G. W. Shaver [illegible] two large barges and will be able to a[illegible] [illegible] about 2000 people each trip [illegible] fare for the round trip will be 50 [illegible] tickets may be purchased of W. M[illegible] [illegible] & Co., Lowndale, Wheeler [illegible] Irving & Lane, H. H. Hildebrand [illegible] Pendleton, Woodard, Clark & C[illegible] Roberts and J. K. Gill & Co. Also [illegible] Morrison street dock at time of departure.

Portland's High School Compliment[illegible]—Hon. Ira G. Hoitt, state superinten[illegible] public instruction of California, an[illegible] [illegible] in the city yesterday. Mr. Ho[illegible] address the state teachers' associa[illegible] Salem to-night. Yesterday Professor [illegible] [illegible] Crawford of the city s[illegible] showed Mr. and Mrs. Hoitt about th[illegible] [illegible] party visited the High school an[illegible] conducted through the big building [illegible] superintendent Miss Sabin. The [illegible] complimented it and warmly on [illegible] [illegible] building, which in finish a[illegible] [illegible] they said was the fine[illegible] [illegible] ever seen, eclipsing anything th[illegible] [illegible]

Police Arrests for June.—Dur[illegible] month of June the city police made [illegible] [illegible] arrests [illegible] threatening to kill, [illegible] 8; assault and battery, 20; dru[illegible] disorderly conduct, 40; assault [illegible] dangerous weapon, 2; abusive langu[illegible] [illegible] begging, 4; resisting an[illegible] [illegible] selling liquor to mi[illegible] [illegible] roaming the streets [illegible] [illegible] fast driving, 2 [illegible] concealed weapons, 2; soliciting prost[illegible] [illegible] kidnapping [illegible] selling [illegible] or without a [illegible] This makes a total of 176 arrests [illegible] month.

What Is Said.—A real estate ma[illegible] [illegible] predicts a big boom for propert[illegible] Peninsula, lying between East [illegible] and St. Johns. Said Mr. L. D. Bro[illegible] [illegible] in conversation with a [illegible] "Now that the electric road to St [illegible] an assured thing we may look f[illegible] boom on the whole Peninsular betw[illegible] Portland and St. Johns and espe[illegible] the Peninsula addition, as the [illegible] surely cause property here to adv[illegible] high if not higher than it is a[illegible] Albina. Property in this addition [illegible] 14 Morrison street."

Tacoma Directory.—Mr. C. E[illegible] manager for R. L. Polk & Co. [illegible] The Oregonian office an excellent [illegible] plete directory of Tacoma, Wash[illegible] just been issued. The book con[illegible] pages and in addition to the [illegible] cludes much valuable statistica[illegible] The book presents a very neat typo[illegible] appearance and is handsomely bo[illegible] is the fourth directory of Tacoma [illegible] by R. L. Polk & Co. and is superi[illegible] yet issued. This firm is the only [illegible] publishers in the Northwest.

An Interesting Chestnut Conc[illegible] new gong has been added to the [illegible] missioner's office. It is connected [illegible] fire alarm telegraph system and ri[illegible] taneously with the big bell when a[illegible] turned in. The electric current [illegible] turned on from the office and [illegible] when people wander in and as[illegible] some question, "Whom will t[illegible] nominate for fire commissioner?" [illegible] Weidler presses an electric button [illegible] the gong on them.

Two New Tanneries.—It wa[illegible] yesterday that the company whic[illegible] ing the large shoe factory at Sunn[illegible] decided to put up two tannerie[illegible] start up with as large a force of m[illegible] intended in the factory. The first y[illegible] tanneries [illegible] perhaps one [illegible] [illegible] for th[illegible] tory will be [illegible] the ta[illegible] addition to the [illegible] necessary [illegible] ought here [illegible] intend the work.

Grass Fed Cattle.—Grass fed [illegible] coming in large numbers now [illegible] good condition [illegible] Mr. Rathbun [illegible] the Portland s[illegible] reports that within the past [illegible] there have been received from [illegible] alone one carload for Sprague [illegible] worth three cars for Hampton [illegible] for Wright. There have been [illegible] loads for other persons and a[illegible] loads of hogs.

Real Estate at Auction.—T[illegible] and beautifully located tract c[illegible] taining thirty-five acres known [illegible] and Price tract will be sold at p[illegible] by A. B. Richardson, auctione[illegible] Wednesday, July 3, at 2 o'clock [illegible] valuable property has a fronta[illegible] thorne avenue of one half mil[illegible] offers a [illegible] inducement to p[illegible] sire to make a safe and prof[illegible] ment.

Merry Wedding Bells.—Mr[illegible] Peart, manager of the domestic [illegible] at the Farmers and Mechanic[illegible] united in marriage last night [illegible] dence of the bride's parents [illegible] Ward, the daughter of Hon. Jo[illegible] mercantile affairs here. The we[illegible] very quiet one [illegible] ent. The wedding gifts were [illegible] costly. Mr. and Mrs. Peart [illegible] the city on North Tenth street, near J[illegible]

Contracts [illegible] The [illegible] of the general [illegible] contract made by Surveyor-G[illegible] with Deputy Surveyor Todd [illegible] two and a half [illegible] Mishawaka [illegible] Nicholson [illegible] Cathcart has completed the [illegible] tion of T. 28 S. R. 14 W., near Ca[illegible]

The New Fire Alarm Bo[illegible] new fire alarm boxes ordered [illegible] commissioners at a cost of $1[illegible] received from the East and wi[illegible] soon as the locations are [illegible] One will be placed in front o[illegible] tion building.

LAND AND VICINITY.

Practical Test.—A New York paper of recent date, says: A practical test of a respirator was given at Newark yesterday by its inventor, Thomas ... (assistant foreman of Columbia Engine No. 3) of the Portland Or... A large delegation of fire department men from adjacent cities were in attendance. A frame building was heavily charged with smoke from burning salt hay and Mr. Richet entered the building with the respirator, while Assistant Foreman ... of the New York fire department accompanied him without the smoke ... After three minutes in the dense smoke Needham emerged in a sorry condition. Richet continued for ten minutes and came out perfectly fresh and said he could have remained half an hour longer. ... then tested the respirator. The respirator consists of a ... fitting over the face and provided with glass openings, sponges and rubber tubing descending to within a short space of the ground.

Street Mendicancy.—The professional mendicants, most of whom play some sort of a musical instrument, usually a hand organ, to enlist the sympathies of the public, are a class of people whom the City Board of Charities is unable to reach. They scorn the assistance of the board, preferring to make a more princely living by parading their deformities and grinding out solemn music. A gentleman who watched one of these woman musicians for ten minutes yesterday afternoon counted eleven persons who dropped money into the box. Each contributed only 5 cents, the total receipts would be 55 cents, and at this rate of income it can readily be conceived why people prefer it to assistance from an organized association of charity.

Magnificent Excursion Steamer.—The large and fleet steamer Multnomah is said to be one of the best excursion boats in the Northwest. Its cabins are very large and beautiful, lined with windows on all sides, affording to hundreds a good view of passing scenery while in speed the owners claim they take down their colors to no boat on the Columbia. Recently the Multnomah made the distance nearly ... miles between Multnomah Falls and Vancouver, in two hours. This steamer has been chartered by the Albina M. E. church for an Astoria trip on the Fourth, and as it goes through without stopping for freight or passengers both ways, great speed is expected to be made. Fare $1 the round trip; children 50c.

The Regiment Excursion.—There will be a very large crowd at Vancouver July 4 and all means of transportation will be taxed to the utmost. The First regiment N. G. O., in order to provide for the comfort of their friends as well as themselves, have chartered the steamer G. W. Shaver, with two large barges and will be able to accommodate about 2000 people each trip. The fare for the round trip will be 50 cents, and tickets may be purchased of W. M. Wis..., ... & Co, Lownsdale, Wheeler & Co, ... & Lane, H. H. Hildebrand, Buffum & Pendleton, Woodard, Clarke & Co, A. Roberts and J. K. Gill & Co. Also at Morrison street dock at time of departure.

Portland's High School Complimented.—Hon. Ira G. Hoitt, state superintendent of public instruction of California, and wife, were in the city yesterday. Mr. Hoitt will address the state teachers' association at Albany to-night. Yesterday Professors Burnham, Pratt and Crawford, of the city schools, escorted Mr. and Mrs. Hoitt about the city. The party visited the High school, and were conducted through the big building by City Superintendent Miss Sabin. The visitors complimented Portland warmly on having such a building, which, in finish and arrangement, they said was the finest they had ever seen, eclipsing anything that California has.

Police Arrests for June.—During the month of June the city police made the following arrests: Threatening to kill 5, larceny 24, assault and battery, 20, drunks 57, disorderly conduct 40, assault with a dangerous weapon, 2, abusive language 5, vagrancy, 2, begging 4, resisting an officer, ... 9, selling liquor to minors 1, ... 2, roaming the streets 3, defacing building 1, fast driving 2, carrying concealed weapons 2, soliciting prostitution ... 2, lewd cohabitation 2, kidnapping 1, desertion 1, selling liquor without a license 1. This makes a total of 176 arrests for the month.

What Is Said.—A real estate man of the city predicts a big boom for property in the Peninsular lying between East Portland and St. Johns. Said Mr. L. D. Brown yesterday, in conversation with a reporter: "Now that the electric road to St. Johns is an assured thing, we may look for a big boom on the whole Peninsular between East Portland and St. Johns, and especially in the Peninsula addition, as the road will only cause property here to advance as high, if not higher than it is at Mount Tabor." Property in this addition is on sale at ... Morrison street.

Tacoma Directory.—Mr. C. E. Meech, manager for R. L. Polk & Co. has left at the Oregonian office an excellent and complete directory of Tacoma, Wash. that has just been issued. The book contains 519 pages, and in addition to the names in full has much valuable statistical matter. The book presents a very neat typographical appearance and is handsomely bound. This is the fourth directory of Tacoma published by R. L. Polk & Co. and is superior to any yet issued. This firm is the only directory publishers in the Northwest.

An Improvised Chestnut Gong.—A fine new gong has been added to the fire commissioners' office. It is connected with the fire alarm telegraph system and rings simultaneously with the big bell when an alarm is turned in. The electric current can be turned on from the office and nowadays, when people wander in and ask the tired time question, "Whom will the mayor nominate for fire commissioner?" Secretary ... presses an electric button and rings the gong on them.

Two New Tanneries?—It was reported yesterday that the company which is building the large shoe factory at Sunnyside had decided to put up two tanneries and not start up with as large a force of men as was intended in the factory the first year. If the tanneries are built perhaps one-half of the 300 hands at first calculated for the shoe factory will be transferred to the tanneries in addition to the experienced tanners that necessarily must be brought here to superintend the work.

Grass Fed Cattle.—Grass fed cattle are coming in in large numbers now and are in good condition, especially smaller ones. Mr. Rathbun of the Portland stock yards reports that within the past day or two there have been received from Arlington stations nine carloads for Spaulding & Pap..., with three cars for Hampton and twelve for Wright. There have been several carloads for other persons and also five carloads of hogs.

Real Estate at Auction.—That valuable and beautifully located tract of land containing thirty-five acres known as the Richard Price tract will be sold at public auction by A. B. Richardson, auctioneer, on next Wednesday, July 3, at 2 o'clock P. M. This valuable property has a frontage on Hawthorne avenue of one half mile. The sale offers a fine inducement to parties who desire to make a safe and profitable investment.

Merry Wedding Bells.—Mr. Walter H. Peart, manager of the domestic department of the Farmers' and Mechanics' store, was united in marriage last night at the residence of the bride's parents, to Miss Lou Ward, the daughter of Hon. John P. Ward, mercantile appraiser. The wedding was a very quiet one, none but relatives being present. The wedding gifts were numerous and costly. Mr. and Mrs. Peart will reside in the city on Ninth street near Jefferson.

Contract Approved.—The commissioner of the general land office has approved the contract made by Surveyor General Taylor with Deputy Surveyor Todd for surveying two and a half townships in the vicinity of Nehalem, in Nicholson Valley. Mr. S. B. ... has completed the survey of a portion ... 28 S, R 14 W, near Cape Arago.

The New Fire Alarm Boxes.—The ten new fire alarm boxes ordered by the fire commissioners at a cost of $1000 have been received from the East and will be put up as soon as the locations are decided upon. One will be placed in front of the Exposition building.

Inspection Completed.—Judge Douglass, who came here some time ago, has completed the inspection of the surveys of lands on the Umatilla reservation to be given in severalty made by Messrs. Curran & Noland and is now inspecting the surveys of the additional allotments. As soon as he has completed this work, their lands will be allotted to the Indians and the remainder of the reservation will be sold as provided by law.

Pleased to Get The Oregonian.—S. C. Beckwith, of New York city, writing under date of June 25th says: "Mr. and Mrs. F. J. A. Mayer, of your city, called at the Eastern office of The Oregonian to-day and were greatly pleased to secure late copies of The Oregonian. They arrived here on the 24th and sail to-morrow for Liverpool on the steamer Trave on their way to Germany."

Medical Copartnership.—Dr. Osmon Royal announces to his friends that he has associated with himself Dr. Harlow B. Drake and the doctors' new office at 107 Third street, opposite the Abington building, will be open as follows: Dr. Drake, 8:30 to 10 A. M., 1 to 3 P. M. Dr. Royal as heretofore, from 10 to 12 A. M. and 3 to 5 P. M.

An Unparalleled Hay Crop.—Mr. S. M. Graham, of Marshland, Columbia county, has eleven acres of bottom land on which he cut six tons of hay to the acre. Last winter he fed forty head of cattle, sold thirty tons and still had three tons left this spring. A yield of this kind must convince an Eastern farmer of the productiveness of Oregon soil.

Ho for Vancouver.—The Vancouver Transportation Company have arranged to place two or three steamers so as to leave the foot of Alder street at 8:30 and later, arriving at Vancouver in time to see the grand procession and sham battle. Boats will make frequent trips during the day. Quick time and no barges.

Evidence of Steady Growth.—The business of the postoffice here is constantly increasing. The sale of stamps for the month of June past amounted to $9575. For June, 1888 the sales amounted to $8128, and for June, 1887 they amounted to $6374.20. This is the best kind of evidence of the growth of the city.

Miss Clarke Was Elected.—Through an inadvertence the name of Miss Marian S. Clarke was omitted from the list of public school teachers elected for the next school year. Miss Clarke was re-elected to her old position as teacher of the Ainsworth school.

J. Selling & Co. are making special efforts for the Fourth and show many lines of straw hats and negligee shirts from 50 cents upwards. For the ladies parasols. Look at our parasols and prices will make you buy.

The First Cricket Game.—The first cricket game of the season will be played at the Oaks, East Portland, Thursday morning at 10 o'clock. Those who wish to play are requested to be on hand at the hour named.

Latest Subscriptions.—Following are the latest subscriptions to the Johnstown relief fund: Couch school grade two $0.60, teacher $2, Stone Masons' Union per A. Pflaum $10. To the Seattle fund: cash on the street $2.

Find Ready Sale.—A dealer here receives daily from one fisherman down the river from fifteen to twenty dozen of fine crawfish. They sell for 25 cents per dozen.

Oregon City.—On July 4 the Latona makes three round trips from Taylor street. Leaves 10 A. M., 4 and 11 P. M. Last trip from Oregon City 7 P. M.

Gray's Harbor and Shoalwater Bay.—Merchants will note that steamers for the above two ports sail to-night at 7 P. M. from foot of C street.

Money to Loan on improved real estate. Apply to the Oregon Mortgage Company, Abington building, 106 Third street.

Ladies Relief Society meets this afternoon at 2 o'clock.

Lost.—Roll of specifications. See ad.

BUSINESS ITEMS.

The Vienna,
Washington street, leads all for lunches and oysters.

CABLE CARS ON FIRST STREET

Mr. Joseph Holladay Proposes to Make Some Great Changes on His Line

Truly the day of the street car horse in Portland bids fair to draw to a close in the near future. It will probably not be long before cable and electric cars glide over the path over which he oft wended his way. A cable line and two electric motor lines are under way and the Transcontinental and Multnomah street railway companies have been authorized to transform their systems into cable or electric lines. And now Mr. Joseph Holladay proposes to run cable or electric cars on First street.

The First street system belonged to the estate of Ben Holladay. Its capital stock is $200 000. One thousand two hundred shares representing $120 000 of the capital stock were the personal property of Holladay. By order of the court this property was sold recently and for the horse car line James Steel bid $25 000, L. Besser $34 000 and Joseph Holladay $34 100. The stock has not yet been transferred to the highest bidder, and Mr. Holladay does not know whether his bid will be accepted.

"If I get the stock," he said yesterday, "I will increase the capital of the company to $500 000 and ask the council for authority to lay a double track and transform the lines into a cable or electric system. I will also extend the road southward to Riverview cemetery and northward to the northwestern portion of the city. We now have two miles of single track on First street but we can never operate the line to any advantage so long as we have only a single track which necessarily delays cars at the switches. Several years ago I asked the council for authority to lay another track but a protest was filed on the ground that the street was not wide enough to accommodate two tracks. In Chicago, San Francisco and other cities there are double tracks on streets that are no wider than First street. Montgomery street, San Francisco, which is about as wide as First street, has two tracks.

"For several years the First street line has paid expenses and that is about all."

FIRE PROTECTION

Z. T. Wright has sold one of the well known Lindgren Chemical Fire Engines to the City of Montesano, W. T. It is undoubtedly the best fire apparatus in existence for small villages, mills or private families. The chemical is put up in suitable sizes for families and from that up to large 2 horse engines. One gallon of the fluid guaranteed to be equal to 800 gallons of water. Will put out any kind of a fire.

TRY IT

Freimann's lunch: two kinds of soup, two kinds of fish, four entrees, two roasts, chicken and beef and dessert. All at Freimann's Annex daily from 11 A. M. to 2 P. M. Corner First and Oak. Popular prices.

Through Pullman sleepers and dining cars, also second class sleepers through to the East via Northern Pacific Railroad. Office, No. 121 First St., corner Washington.

Why in the world will people waste their money by eating anywhere else but at the New York, one of the very best restaurants on the Coast.

PORTLAND TUESDAY JULY 2

MAKES NO PROGRESS

Forty-one years ago the first woman's rights convention was held at Seneca Falls N Y To day in Wyoming alone women are permitted to vote on all questions on equal terms with men In Washington territory the law granting them the suffrage was set aside by the supreme court in 1887 In Utah the Edmunds law excludes women from the suffrage which they once fully enjoyed there In fourteen states they can vote for school officers, but whenever amendments to the Federal or state constitutions have been proposed granting women complete suffrage they have been decisively defeated The same result is visible in England where two bills were recently introduced one admitting only married women to the suffrage and the other putting men and women on an entire equality as to the elective franchise. The women of England like the women of America have risen up to protest against this legislation on the ground that they do not want the suffrage and many have petitioned against it saying that the proposed extension of the parliamentary franchise to women would be a measure distasteful to the great majority of the women of the country unnecessary and mischievous both to themselves and the state

The last number of the *Nineteenth Century* contains An Appeal Against Female Suffrage " signed by about sixty women of distinction including a brilliant American woman Lady Randolph Churchill the daughter of the late Lawrence Jerome of New York The signers of this appeal say that the hard work of governing and defending the state must naturally depend on men and that women cannot undertake it successfully because of the disabilities of their sex that they are satisfied with the powerful though indirect influence which they already have as social factors and that to force them into competition with men in the actual business of government would be to weaken if not to destroy that influence and to subject them to hardships which they are unfitted to bear that the emancipating process has now reached the limits fixed by the physical constitution of women and by the fundamental difference which must always exist between their occupations and those of men that if women were admitted to the suffrage their natural eagerness and quickness of temper would probably make them hotter partisans than men and the whole nation would suffer in consequence the risks of politics would be enormously increased and what is now a national blessing might easily become a national calamity while political life would tend to blunt the special moral qualities of women and so to lessen the national reserves of moral force '

The force of this argument is confirmed by our experience in Boston and in Brunswick N J where the women neglected to exercise their right of voting for school officers until a bigoted appeal was made to their religious partisanship and prejudices Last year the whole vote cast at the New Brunswick school elections was less than 300 and included but very few women but at the recent election the number of women voters alone was 363 thus electing the citizens ticket over the regular ticket by a large majority The ludicrous part of the affair is that Mr Woods the candidate on the regular ticket who was accused of a disposition to favor Roman Catholics as teachers at the expense of Protestants is himself a strict Presbyterian while of the sixty teachers in the New Brunswick schools only six are Roman Catholics and no teacher Catholic or Protestant has any opportunity to inculcate religious doctrines for the schools are wholly secular

RAILWAYS ON THE PACIFIC

Our producers and those of California complain that they endure higher charges for transportation than are paid in the older states and territories The *Pacific Rural Press* quotes from Poor's manual that the average rate for the whole United States for all classes of merchandise was 1 063 cents per ton per mile for the year 1887 Average per ton per mile charge in Vermont is given at 92 Pennsylvania 88 New York 85 Maryland 59 Ohio 65 Indiana 70 Virginia 80 New Mexico 84 The average of all the states is less than 80 The lowest rate per ton per mile for 100 miles south of San Francisco is 2¼ cents or three times the average charged in the states referred to This statement does not correspond with what the railroad interest there asserts for they have claimed in published statements that charges on the Southern Pacific system are as low or lower than the average paid in the United States

A comparison of railroad interests on this coast and east of the Missouri river shows that cost of construction should not be higher here than there Take any road in the New England states or New York New Jersey Pennsylvania or Ohio and there are more rivers to cross much rough country and the cost of construction is much larger than the average on the Pacific From Puget sound to the Columbia is not a rough country to build over the Willamette and other valleys to the southward the Sacramento and San Joaquin are level as a barn floor much of Eastern Oregon and Washington is over easy gradients and except in a few instances where mountain ranges are to cross the routes are not difficult so the cost of building as well as the expense of running trains should not be greater here than in the East

The same people who place all their hopes and dependence on having transportation at command and demand railroads as the fulfillment of their earthly hopes so soon as the railroad is completed become its bitterest foes They complain of monopoly and overcharge and place all the evil of the times to the charge of corporations This is true of many who are unreasoning and exacting They make comparisons between rates East and here and do not make similar comparisons as to population and traffic there and here It is well enough to keep a stiff rein on all great corporations and hold them to a fair rate of charges but the fault finder who would hardly like to run a store or work a farm at 4 per cent profit on his investment will occasionally blame a railroad for extortion that hardly makes expenses and would be glad to see 4 per cent income earned

Take New England for an example The [illegible] there are [illegible] tr[illegible] and the travel from [illegible] [illegible] through New England [illegible] factories [illegible] [illegible] squarely in the face [illegible] the difference in traffic [illegible] made Of course all charges for passage and freight must be proportioned to business done and costs of living [illegible] labor The problem cannot be [illegible] but must be worked out with care If justice can be done to capital as well as to [illegible] and the railroad question like every other has two sides to it.

But while there is a difference between here and there that must control rates and charges it should not be difficult to estimate that difference and arrange charges in harmony with it. Another fact that the state has a right to take cognizance of in regulating fares and freights by legislation is that lower prices often pay the best income In his recent letter about Hindoo railways Frank Carpenter shows three classes of travel First class two and a half cents per mile, second-class half that and the third class half the second class or not quite two thirds of a cent a mile Even at this cheap rate which is scarce a fourth of the average charge in the United States the third class travel of India brings in more income than all the other and higher class travel combined Here is a fact that goes to prove that our rates of travel are far too high and that greater income would result from cheapening the rates

A citizen with a predilection for statistics informs the Philadelphia *Press* that there are $2 000 500 000 invested in the dairying business in this country an amount almost double that invested in banking and commercial industries Proceeding with the estimate it is found that it requires 15 000 000 cows to supply the demand for milk and its products in the United States that to feed these cows 60 000 000 acres of land are under cultivation that the dairy machinery and agricultural implements in use are worth over $200 000 000 and that in carrying on the industry 750 000 men and over 1 000 000 horses are employed These statistics are carried out in detail the most important showing being that the total milk product of the county is 6 750 000 000 gallons a year While about one half of this is used in the manufacture of butter and cheese it may yet console the temperance statistician whose computations of the volume of liquors of various kinds that are yearly consumed is familiar to every school boy to be assured that there is a little matter of 3 375 000 000 gallons of milk used as a beverage each year as an offset to the ruby lake which they assure us is drained through the decanter in the same space of time

The Pittsburg *Dispatch* noting a report that a recent invoice of imports on the African coast consists of one missionary and 50 000 cases of liquor says that this is an indication that Africa is learning the arts of civilization almost to the point where she might cast a vote on prohibition The women of the W C T U should work the matter up at once

The merchants of Fresno Cal have formed a society the object of which is to secure the names of such employes as frequent gambling holes If such a plan was universally adopted we should have fewer cases of embezzlement in our criminal courts

PROGRESS OF BAKER CITY

Rapid Building—Water and Sewerage Systems—Street Railway and Signal Service

Baker City Democrat

How many of our citizens and business men during their everyday routine of life stop to note the wonderful advancement and rapid strides our city is making toward becoming not only the largest in population, but the most important city in the state as a commercial distributing and shipping point?

Situated as Baker City is in the center of the richest mineral belt and best agricultural and stockgrowing countries on the Pacific slope, it has every advantage toward attaining that prominence which will rank her among the foremost cities of the West She has no competitor in the great race for supremacy to speak of east of Portland if her business men will only put their shoulders to the wheel and work in a body as one and to attain the one great end of making her the Queen City of the state

To note the vast amount of building now going on within the city one cannot help but see the great future that is in store for Baker City On every hand the work of construction is steadily progressing and handsome residences model business houses and neat cottages are being erected

Among the notable business buildings to be erected this summer might be mentioned that of S A Heilner which is to be a handsome three-story structure built on the latest and most approved designs of modern architecture The building will be erected on the site at present occupied by S Ottenheimer as a mercantile establishment on the corner of Front and Court streets In embarking in this enterprise Mr Heilner shows a commendable spirit and that his faith in the future of our prosperous city warrants the construction of such a building will be amply repaid is a foregone conclusion among all

Work on the new Warshauer hotel building is being pushed rapidly ahead and ere long Baker City will be in possession of one of the finest and best equipped hotels in the state

By an almost unanimous vote of the people Baker City is to be bonded in the sum of $45 000 and supplied with one of the best water and sewerage systems to be had for the money The sanitary condition of the city is a question that has long troubled the minds of our citizens and one which threatened to throw us into the jeopardy of an epidemic at any time But now that we will soon have the means at hand to do away with the rubbish and filth accumulated in our streets in our alleys and which sent forth stench emitting fumes that carried with it a death dealing scourge sure to arise all may rest at ease after this system is once inaugurated as to the health and cleanliness of the city Our water system when more fully introduced will be perfect The supply of water from the new city well has been tested on several occasions and proved adequate for all purposes which is a great relief to many who thought the supply would be insufficient and would give out during the summer months

In the near future Baker City will put on more metropolitan airs by the inauguration of a street railway which is a much needed enterprise and one that will surely pay dividends from the start The inaugurators are among our leading citizens and will push the work of construction to a speedy termination They have secured a franchise from the city for a period of twenty years and are to have the road completed and in operation within three months' time

A United States signal service station is another important project which is soon to be introduced here and in all probability will be in operation by the first of the coming month Mr C H Stuller a government officer is here arranging all preliminaries, and it is understood that the office and observatory will be in the new Heilner building

LETTER OF ACKNOWLEDGEMENT

From Judge J R Lewis of Seattle to Charles H Dodd

The following letter is self explanatory

SEATTLE Wash June 10 1889

C H Dodd Chairman Relief Committee—I am in receipt [illegible] of the [illegible] check for $[illegible] [illegible] contribution [illegible] of all [illegible] who suffered by our late fire

CORNUCOPIA

A Visit to the Placers in the "Blue Bucket" Region—Shipments of Sulphurets—Mention of Various Mines

Baudin in Oregon Scout.

Mr Sullivan came in Thursday from First Engle and gives encouraging word both from the ledges and placers There has been quite an influx of miners during the past week several of whom came from Sparta Mr Sullivan's mines still continue to look encouraging Mr McGee is at work on assessments and Aldersly is also being represented on his property The district or that portion of old Cornucopia district may yet develop into a second Sanger

THE IMNAHA

Last Saturday Jesse Osborne Clint Duffy and George Bolles left for an exploration around and beyond Bonner lake The region is particularly designated as the Blue Bucket which had been previously visited and reported to be rich in placer The point to which the report directed them ends on a small branch of the Imnaha but after several days search they failed to light on the place which answered the previously given description The report upon which Mr Osborne justified the taking of the present trip was given by men who formerly worked with success the old diggings on Imnaha creek It lies northeast from Cornucopia The party struck the Imnaha about fifty miles from its entrance to the Snake and about twenty five miles from the Willows Mr Duffy thinks the Imnaha is about at the elevation of Eagle or Pine valley and is from one half to a mile wide forming a park for five miles up and down the river The soil is excellent and offers homes for numerous families Here is a field for the county fathers to do a little road building The Willows people already have a road to the Upper Imnaha some distance above where our party reached it They were all delighted with the trip the country and the prospect Oregon is scarcely prospected hardly explored and as yet unsettled As each new valley is penetrated new beauties are disclosed and the golden soil seems begging and crying to man come and put into the ground [illegible] [illegible] of my wealth in abundance The party will make another effort to find the Blue Bucket placers as the evidence of their existence is indisputable In fact as I have stated before in other letters to the *Scout* this is the center of a vast auriferous region and some day a new Florence will be struck From Mr Osborne I have a still more glittering account of the Imnaha at the point where they camped He is anxious to repeat the trip Mr Osborne's story of the fertility of the soil and the general surroundings given with all the particularity of an old mountaineer was so attractive to one of our citizens that another visit with a view to permanent settlement has been fixed for the near future

AJAX

This is the property of a Portland gentleman Mr Cohen, wholesale liquor dealer in that city He spent a few days in town last week and in company with Robert Kelly visited the mine The mine will be thoroughly explored this summer It was examined by Mr Kelly who in addition to being an old practical "pick and shovel" miner is highly educated and much of his life has been spent in studying the phenomena of nature both of land and water

EXPECTED

Mr Lacousier who was in town about a month since is reported to be on his return When he left he expressed himself highly pleased with the district and certainly every change which he finds will be for the better He will find the various district groups improving under the pick and shovel and the people in general more hopeful Mr Davis is at work on the Last Chance mill but at what time it will be running is still in the future

NEW ARRIVALS

Last Wednesday's stage brought us an expert from Colorado—Mr John Ruderberg—who has been looking around the hills with what particular object I do not know I think from his associations he is in the interest of Portland capitalists He likes the outlook and if left to his own judgment he may induce some one to improve some of the properties which have been called to his notice

SHIPMENT OF SULPHURETS

This morning Morgan's six mule team started for Baker City with 7 000 pounds of sulphurets for shipment to San Francisco for reduction The value of the sulphurets is variously estimated from $100 to $300 dollars per ton This is in addition to the free gold caught on the plates

UNION MINE

Mr Burlette was down from the Union and reports that mine looking better than ever This mine lies west of the Companion and like that mine shows much free gold

A QUESTION OR TWO

June 30

To the Editor of The Oregonian

While the subject of reorganizing the police force is being canvassed by the people under fire of The Oregonian is it not a good time to ask the police commissioners what earthly good can be expected by keeping Abe Tichenor on the force?

Is he employed and paid out of the city treasury as a spy for the prostitutes now incarcerated in the county jail or to pimp for those released on bonds until trial and conviction?

Or what was his business to drive to the house of prostitution on Fourth street connected with the Golden Eagle saloon between 1 and 2 o'clock P M? He was there consulting with Miss Amanda the proprietress now under bonds And what message did he send by Miss Amanda immediately thereafter to those now in jail?

He is certainly destitute of all semblance of moral character or inclination

THE BOSTON WOOL MARKET

The Boston *Wool Report*, in its weekly review of the situation in wool says

The increase in the sales of domestic wool this week has been confined to new wools. Some large sales of spring Texas are reported and other sales of new clip have been made about as fast as the wool has been offered for sale. Manufacturers are in need of supplies, and as the stock of old wool here is small they have sought the supplies of new wool that have been arriving. Many of the transactions in Texas wool that are reported this week were made previous to arrival. There is a firm market here for all kinds of wool and we advance our quotations to some extent. In considering the current quotations however it should be borne in mind that they are largely nominal in most cases, and particularly so on washed fleeces, stocks of old of which are reduced to almost nothing and supplies of new so far received very small. Quotations here therefore are largely based on the prices which are reported as being obtained in the West and are those that dealers will be obliged to ask when receipts of wool become large. The advance in London at the auction sales is about 5 p... and this has added to the firmness seen here. A late cable from London received yesterday quoted the market firm there with Port Philip merino shrinking 58 per cent selling at ...d New Zealand merino shrinking 53 per cent ... Sydney merino, shrinking 54 per cent ... These wools will cost fully 85c clean laid down here and cannot compete with Ohio and Pennsylvania fleeces. The advices from interior markets are very strong and extreme prices are asked in nearly all sections with the wool selling freely. Dealers here will be obliged to ask higher prices than have of late been current, but it is a question whether such can be maintained in view of the situation of goods. Manufacturers claim that they cannot pay any higher prices for the raw material unless they obtain a material advance on their goods. It will take an advance of fully 15 per cent for more in the price of goods to equal the increased cost in the price of wool. Thus the situation in the wool market is far from encouraging when looked at from a seaboard point of view and all the transactions now going on in the West are purely of a speculative nature. If there was universal confidence in the trade in all its branches the supplies of old wool that are left in the market would be held with greater firmness. Dealers would not be so willing to dispose of them, and manufacturers would be more anxious to buy them.

MARKETS BY TELEGRAPH

NEW YORK MARKET REVIEW

NEW YORK July 1—The exports of gold from the United States to Europe are attracting much attention from European speculators. More than $30,000,000 in gold has been exported since the first of the year.

In the opinion of certain English economists the continued export of gold from this country is partly the result of the monetary policy of the United States on the one hand and of Europe on the other.

"If this view should turn out to be correct adds the authority in hand it behooves every business man to carefully watch the further development of events in New York."

J C Brown the statistician of the New York produce exchange gives some carefully prepared estimates of the supply and distribution of wheat during the present cereal year and concludes that the total reserve of old wheat on July 1st available for export is about ... 000 000 bushels aside from the 50 000 000 bushels that are usually considered as a permanent and unavoidable reserve. In other words the total reserve available on July 1st is about ... 000 000 against 75 000 000 bushels one year ago.

Wool supplies are very generally under such control that they can be managed without serious inconvenience to the holders, and are, in consequence, offered with a due degree of care and moderation. Old wools have pretty well worked off from the hands of those willing to sell, and the new supply comes forward rather too slowly as yet to permit of any great amount of sorting up and handling. There has, all in all, been a pretty good trade accomplished this week, covering a general assortment of domestic. The transactions as reported embrace 25 000 pounds of Eastern Oregon 3000 pounds of scoured Oregon, and 6000 pounds of spring California.

There is considerable activity in canned goods. The *Commercial Bulletin* remarks on the fact that the interest displayed is not confined to any special line of goods, the entire list of vegetables and fruits coming in for liberal attention from the retailers of this whole eastern section of the country.

NEW YORK STOCK MARKET.

NEW YORK, July 1.—The stock market to-day was extremely dull throughout, especially in railroad stocks, of which only St. Paul and Atchison showed any animation whatever. Trusts were fairly active, although lead and sugar monopolized the interest in that class of securities. Speculation, however had all day long rather a holiday aspect, and but little is expected for the remainder of the week owing to the holiday. The market closed dull, but firm to strong, and generally at advances of small fractions over Saturday s figures.

Government bonds have been dull and steady. State bonds have been entirely neglected.

MONEY, BONDS AND STOCKS.

NEW YORK, July 1.—Money on call, easy at 4@5. Prime mercantile paper 4@5½. Sterling exchange, dull, steady, 60-day bills, $4 86½; demand, $4 88¼.

Bar silver—91⅞c.

Petroleum—Opened steady at 92⅞c and closed steady at 9.¼c.

FOREIGN MARKETS

BRITISH GRAIN TRADE REVIEW

LONDON July 1—The *Mark Lane Express* says: Hot and dry weather prevails and is pushing wheat. Harvesting will begin earlier than usual. Storms in the Netherlands and Northern France have destroyed much corn. A fine harvest is being reaped in Spain. The Algerian harvest is satisfactory and it is prophesied that there will be a surplus for export of 500 000 quarters. Over an average yield is promised in Northwest Europe. In the Latin countries there will be a full yield. The firmness of English wheat is remarkable. Prices are so extremely low that farmers have no fear of further depression resulting from their retaining their grain no matter what may be the probable American surplus in August or English deliveries in September. Foreign wheat has hardened 1d. American reports are less favorable. Flour is firm. Barley 3d@6d dearer. Oats dearer. Corn 3d dearer. At to day s market English wheat was 1d dearer and foreign was held at 6d advance. Flour steady, oats dull, corn firm.

EUROPEAN GRAIN REPORT

LONDON July 1. Wheat cargoes off coast are steady, maize quiet.

Wheat cargoes on passage are quiet but steady.

Mark Lane—English and foreign wheat firm.

English and American flour steadier.

English farmers wheat deliveries during the past week were 34 555 quarters at an average price of 27 shillings 11 pence per quarter.

Shipments of wheat from Calcutta Bombay and Kurrachee during the past week were ... the United Kingdom 50 000 qrs to the Continent ... 000 qrs.

English country markets quiet.

LIVERPOOL July 1—Spot wheat quiet but steady small demand. Options steady. No 1 California 6s 11½d July 6s 11½d August and September 6s 11½d October 6s 11½d November 6s 11d December.

Stocks of wheat and flour in Liverpool July 1st wheat 940 000 to 960 000 qrs flour 150 000 to 160 000 bbls maize 50 000 to 60 000 qrs.

PARIS July 1—Spot wheat and flour quiet. French country markets, slow.

The Lady

Who has fine Hair and desires to preserve its color, abundance, and lustre, should use Ayer's Hair Vigor as a dressing. It keeps the scalp clean and cool, and is by far the most exquisite toilet preparation in the market.

B M Johnson M D, Thomas Hill, Mo, says "I have used Ayer's Hair Vigor in my family for a number of years and regard it as the best hair preparation I know of. It keeps the scalp clean the hair soft and lively and preserves the original color. My wife has used it for a long time with most satisfactory results."

Mrs S A Rock, of Anderson Texas, writes "At the age of 34 in Monroe, La, I had a severe attack of swamp or malarial fever. After I got well my hair commenced coming out and so continued until it had well nigh all gone. I used several kinds of hair restorers, but they did no good. A friend gave me a bottle of Ayer's Hair Vigor. Before finishing the first bottle my hair began to grow, and by the time I used three bottles I had a fine head of hair."

Ayer's Hair Vigor, PREPARED BY Dr. J. C. Ayer & Co, Lowell, Mass. Sold by Druggists and Perfumers

A QUIET, DULL MEETING.

The City Dads Transacted Only Routine Business Last Night

No Fire Commissioner Nominated — Standing Committees Not Appointed—Resolution Adopted—Reports, Bills, Ordinances, Etc.

The meeting of the common council last evening, being the first since the election and held for the purpose of organizing, attracted more than usual attention. It was supposed that the standing committees would be appointed, a president of the council probably elected, a fire commissioner appointed and, perhaps confirmed a new superintendent of the street-cleaning department elected and nobody knew how many official heads decapitated All this business in prospect attracted an unusually large number of spectators who lounged around the auditor's office before the hour for meeting and filled all the benches in the lobby as soon as the doors were opened

There was a great deal of taking people into corners and out in the halls and talking in a mysterious manner and a great deal of laughing and 'gassing,' and a great deal of wondering what would be done but it was only a few minutes after the time set for meeting when Mayor DeLashmutt took the chair and called the meeting to order at which time all the councilmen, including Scoggins, the new member were in their seats

The roll was called and the reading of the minutes went on for a time when, on motion of Forbes, further reading was dispensed with

ABOUT THE STANDING COMMITTEES

Mayor De Lashmutt said that one of the first matters usually attended to at a meeting of this kind was the appointment of standing committees but he understood there was a resolution coming before the meeting intended to change the committees and divide the work more equally Heretofore the greater part of the work had been thrown upon the street committee Owing to the organization of the police and fire commissions some of the committees had become obsolete and it was proposed that they be dispensed with and others appointed in their place He would therefore postpone the appointing of the committees till this resolution had been acted upon The council then proceeded with

THE ROUTINE BUSINESS

PETITIONS, COMMUNICATIONS ETC

From William Munger and others asking that R street be improved from Eighteenth to the center of North Front by grading laying sidewalks and crosswalks and by bridging across Couch lake the full width of of the roadway, with six feet sidewalks on each side referred to street committee

From Kate A. Williams and others asking that C street be improved from the center of North Fifteenth to North Eighteenth by macadamizing full width, referred to street committee

From C L Roper, asking to be reimbursed for injuries to his horse buggy and harness amounting to $76. The horse which was "securely" tied but being sprinkled by a water cart got away and did damage to the above amount, referred to judiciary committee

From A E. Johnson & Co asking permission to erect a sign on a post in front of their office referred to street committee

REPORTS

From the committee on accounts and current expenses to whom had been referred a resolution making changes in the titles and duties of the standing committees recommending its adoption adopted

ADVANCED TO RESOLUTIONS

On motion of Forbes the order of business was advanced to resolutions The resolution above mentioned was then read amending rule 24 so as to read as follows

Rule 24 —There shall be nine standing committees to consist of three members each as follows:

1 —Ways and means
2 —Accounts and current expenses
3 —Street cleaning and sprinkling
4 —Streets
5 —Sewers and drainage
6 —Health and police
7 —Parks and public property
8 —Judiciary and elections
9 —Commerce landings and wharves

DISCUSSED AND ADOPTED

Mr Woodward said the list had been changed since he had seen it He understood that the committee on streets also looked after the street cleaning and sprinkling He thought it was proper they should and if they did not there was likely to be a clash between the committees

Messrs Gerdes and Forbes favored having the two committees so as to to divide up the work and Messrs. Farrell and Fleidner favored one committee having charge of the streets altogether

No one seemed inclined to press the point and finally the resolution was adopted without change and the council returned to the regular order of business

The council then resumed the consideration of reports

From the committee on streets recommending that further consideration of a remonstrance against a sewer in Ninth street be indefinitely postponed as there is urgent need of such a sewer adopted

From the same recommending that an ordinance providing for a sewer in South Water street be passed if the right of way for such sewer is obtained adopted

From the same, recommending that a petition for the improvement of North Seventeenth street be indefinitely postponed as it is indefinite and the the improvement therein specified has been otherwise provided for adopted

From the same favoring the placing of an arc light at C and North Front adopted

From the same recommending that further consideration of the remonstrance of J C Nicholson against the proposed improvement of South Second street be indefinitely postponed adopted

From the committee on judiciary on a communication from the city attorney favoring his recommendation that the case of Bush vs the city of Portland be appealed to the supreme court so that certain points involved might be settled, adopted

The city treasurer submitted his quarterly report which was referred to the committee on accounts and current expenses

Councilman Castendieck called attention to the fact that our new police commissioner Richard Everding was in the lobby and moved that he be invited to a seat within the bar.

The motion carried and Commissioner Everding was escorted to a seat by Castendieck

This action was looked upon by some of the politicians present as a recognition of Mr Everding's official position

CLAIMS ORDERED PAID

Police pay roll for June $383

NEW ORDINANCES

Fixing the license for retailing wines spirits and malt liquors in less quantities than a gallon at $400 per annum to be paid quarterly passed

To amend the ordinance [illegible] franchise to the Metropolitan Railway Company passed

Adopting the report of the city surveyor in the matter of the proposed extension of Fourteenth street in Carter's addition passed

Adopting the report of the assessors in the matter of a sewer in C street, and making appropriation therefor, passed

Reassessing the cost of the improvement of the west half of Water street passed

SOTHEY [illegible]

It was moved to adjourn and on the motion being put several voted 'yes' and some voted 'no' in an indifferent manner

"That settles it,' said Gerdes, and started out.

The chair is in doubt" said the mayor and the motion was put again and the 'ayes' having a decided majority the council adjourned

The spectators strolled out looking as if they had not been very well entertained one fellow saying as he went down stairs One side was afraid and the other dassent

AT THE THEATERS.

Karl Gardner at New Market a Success—Opening of the Musee and Theater With "Lynwood" the Opening Attraction

There is something wholesome and refreshing about a play which deals with the ordinary phases of common every day life among a people and in a country associated with romantic ideas Such a play is Karl Gardner's Father and produced last night at the New Park theater for the first time in Portland There is a pure atmosphere about it and with its picturesque setting it seems to exhale the fresh bracing air of the mountains

Karl Gardner the jolly German comedian in the central role of Herman Leopold the Tyrolean guide has opportunities of which he makes most effective use He is a picturesque figure in his mountain garb and looks the large hearted heroic good natured character he depicts His acting too is natural and unforced and quiet humor beams from the twinkle of his eye and bubbles over in his joyous laughter His pathos also is most natural and effective

But it is as a singer that he especially excels He has a wonderfully sweet and musical voice, and in the several songs he sings reaches the sympathies of his audience One of the most delightful melodies in the play and which he sings with taste and expression is The Lilac on which the curtain falls in the first act He received a merited encore for his delightful singing of it The Spinstube song also was capitally sung by the entire company

The climax to the third act was one of the strongest scenes in the play and Mr Gardner received an enthusiastic recall at its conclusion The scene with little Minnie in which he sing 'Shut Your Eyes Tightly and Open Your Mouth' was a charming bit of work also Indeed with his sweet vocalism all through the play and easy natural acting the performance was a most enjoyable one

The supporting company is an efficient one throughout and ably seconds the star Fatherland again to night

CORDRAY'S MUSEE AND THEATER

This establishment a novelty of its kind in Portland as a fixture opened last night and though anything but complete in either department in their final arrangements the opening was a success Judging from the interest shown by those present it may be fairly concluded the establishment in future as its merits become better known will be a prominent feature in our local places of amusement simply because in every respect it caters legitimately to the instruction of the little folks and to the pleasure of grown up people

The establishment in its combination is a novelty, at the same time a novelty the city much needed In its final completeness it will furnish what has long been wanted on afternoons and evenings both to local families and strangers on a visit. On gala days such as the coming Fourth, it will reap a rich harvest

THE MUSEE

Is a good sized hall capable of holding 1000 people with admission 10 cents and already quite interesting its novelties and wonders being well selected Foremost is the great electric clock itself worth the admission money wonders in zoology birds and animals from all countries historical wax figures of great artistic merit the happy family formed of creatures with absolute antagonisms all living peacefully together miniature glass works in operation before the audience scientific optical illusions cosmora scenes to changed every week and a thousand other things interesting and instructive to old and young On the stage the royal Marionettes Punch and Judy performing birds, magic and jugglery add fun to variety If so wishing after seeing the musee people can pass into the theater for 10 20 and 30 cents more according to position or take one of the four corner boxes holding six persons each for an additional 0 cents Thus a family of six people can have an evening's entertainment full of interest refinement and pleasure at slight cost

THE THEATER

Is a large comfortable square hall with excellent acoustics and capable of seating 1000 people It was filled to its utmost capacity and at least 300 people were unable to obtain admittance The piece presented was Lynwood a thrilling dramatic creation of the rebellion and was put on the stage for the first night wonderfully well Miss Essie Tittell a young lady coming from a theatrical family of marked natural ability took the heroine's part and acquitted herself all through the difficult scenes of the play to the satisfaction of the audience She was called before the curtain at the close of the second act and presented with a handsome bouquet She received the same compliment afterwards Considering Miss Tittell is only 17 years old, she sustained her part with great ability It is a role that tries older and more experienced actresses yet obedience to her father and faith to her lover the supposed murderer of her brother calling for artistic power were both given without rant and with intense womanly feeling and correctness She scored a triumph Her sister Minnie California's most precocious child was equally fortunate in captivating the audience from first to last Miss Jennie Darragh also deserves a complimentary notice At times she was quite effective Among the gentlemen Mr Morris as newspaper correspondent was especially good On this occasion the other gentlemen must excuse a more prolonged notice but their merits shall not be overlooked in future The music and theater are a success

THE O R & N CO S NEW PRESIDENT

Edmund Smith, of Philadelphia Elected Yesterday—Other Corporation Elections

Edmund Smith of Philadelphia formerly vice president of the Pennsylvania railroad system having accepted the call to the presidency of the O R & N Co the directors of that company met yesterday and elected him president. He succeeds Elijah Smith W[illegible] Ladd was re-elected first vice president The office of second vice president was created and W H Holcomb vice president and general manager of the Union Pacific system was elected to fill it Theodore Wygant was elected to his old position of secretary from which he stepped down upon the advent of [illegible] J Potter He takes the place of [illegible] W Smith of New York Elijah's brother who becomes assistant secretary

These are the officers who were agreed upon at the conference of the parties in interest early in the morning of the annual meeting of the stockholders on June 17 All the Portland directors were present at yesterday's meeting also Director Henry R Reed of Baltimore The election was not completed and an adjournment was taken until to-day to fill the offices of treasurer and assistant treasurer [illegible] W Smith is mentioned for the former place and [illegible] Holcomb for the latter

JOE SIMON WON'T GIVE UP

He Proposes To Be Police Commissioner Until the Courts Oust Him

Richard Everding Makes a Demand for His Seat and Receives a Negative Answer From the Board

When Chairman Joseph Simon called the police commissioners meeting to order last evening there were present besides Commissioners Frank and Cardwell Richard Everding the recently elected commissioner and his attorneys Hon George H Williams and ex Judge Watson District Attorney McGinn and Chief of Police Parrish were also in the room

As Mr Everding and his attorneys said nothing of their mission Mr Simon asked that the minutes of the last meeting be read After they had been approved the clerk was asked to read the monthly bills Here Judge Watson arose and said he would like to state to the board the reason for his attendance

Judge Watson, said Chairman Simon I am perfectly willing that you should state briefly what you want but am not willing to listen to any long winded arguments

I do not intend to take up much of your time but I would like to state my case to you was the reply

Mr Simon again objected to any argument on the part of Mr Watson

Gentlemen, I will then present Mr Everding's certificate of election and a copy of his qualification and demand the seat of Mr Simon said Judge Watson I thing Mr Everding is entitled to his seat and I therefore ask it.

The proper place to make that application said Chairman Simon with a smile to the courts and not here I hold that my term of office has not expired and refuse to give up my seat I refuse to hear any further argument in the matter

We ask Mr Frank and Mr Cardwell to decide whether we are to be heard or not continued the attorney

Judge Watson please sit down came from Chairman Simon

I would like to hear what Mr Watson has to say and am willing to listen to him was Commissioner Frank's answer to Judge Watson's appeal

I am not disposed to listen to any lengthy argument as I think the court is the proper place for it replied Commissioner Cardwell

Suppose there is no question as to the law governing this case began Judge Williams and we present the proper credentials showing that Mr Everding has been elected to the position you hold Mr Simon and show too that he has a prima facie right to the seat will you then listen to what we have to say?

CHAIRMAN SIMON WILL NOT GIVE UP

I will hold the seat until the courts decide that I am not entitled to it then I will retire was the chairman's haughty reply

If either Mr Cardwell or Mr Frank will make a motion permitting you to make an argument I shall not object

I consider that it is no more than right that we should hear what the gentlemen have to say now that they are here continued Commissioner Frank This was put in the form of a motion which prevailed

Judge Watson then read the act passed by the legislature of 1885 taking the police department out of the city council's hands and putting it under the charge of a board of police commissioners He then read the amendment to the above act passed by the last legislature and dwelt at length on the clause which reads The police commissioners now in office shall hold their respective offices until their successors are selected and qualified He expressed his views on the situation pretty thoroughly

Judge Williams followed and held that notwithstanding the amendment to the city charter Mr Everding had been elected and had qualified He read the provision of the state constitution which makes the tenure of office in this state four years and said that if the police amendment to the charter holds good Commissioner Simon's seat would be secure for life

At the conclusion of Judge Williams's remarks Chairman Simon said the legislature simply provided that the present commissioners should hold their offices until the next biennial session and not perpetually

Well suppose the legislature makes no change? asked Judge Williams

In that case we will hold our offices for life answered the chair

Then ensued a legal tilt between Judge Williams and Chairman Simon which was ended by Commissioners Frank and Cardwell deciding that the case was not one for them to decide but for the courts

The point is right here broke in Judge Watson, we want to know whether you will admit Mr Everding to night

On receiving a reply in the negative the trio made their exit Mr Everding significantly remarking At some future day

ROUTINE BUSINESS RESUMED

The routine business was then proceeded with

A letter was read from Theodore Wygant and others asking that Special Policeman Singleton be given a night beat in the vicinity of their residences his salary to be paid by the city placed on file

Monthly bills amounting to $4005 were ordered paid

GREAT SUCCESS

Freimann's Annex is doing a rushing business All of the leading merchants now dine there Corner First and Oak

Many women find Pyle's Pearline

Indispensable for washing dishes windows, carpets, cleaning house etc etc but because of its wonderful cleansing properties are afraid to have their clothes washed with it Well, in the past ten years the consumption of Pearline has exceeded 150,000,000 packages, and no complaints, but numerous letters praising it Why, because PEARLINE is absolutely harmless in its place and one of the best places to put it is in the wash tub You can soak your finest linens and laces in Pearline and water for a month with perfect safety [illegible] as they would get if they were washed but once a week for twenty years We could not afford to spend our time and money in telling the public, through the newspapers a single thing about Pearline that would not stand the test and the sooner you test it, the sooner you will know that PEARLINE will do more than we claim [illegible] It is as pure and harmless as the finest imported castile soap Its success has brought out many dangerous imitations Beware of them JAMES PYLE, New York.
